Wi-Fi Zone

To provide convenient connection of notebook computers to the campus network and to facilitate internet connectivity, both wireless LAN access points and fixed network outlets have been installed at different areas on campus including the Central Library, Conference Halls, Canteens, Auditorium and Hostel. With the adoption of the WPA (Wi-Fi Protected Access) Protocol, data communication over the wireless LAN is highly secure. With a notebook computer with wireless capability, the students/staff may get convenient access to the campus network at locations with wireless access points established. The Wireless LAN will also facilitate departments and student organizations in holding exhibitions, presentations and any other functions which require network access in the open areas.
