

**K.L.N. COLLEGE OF ENGINEERING**  
**POTTAPALAYAM - 630 612 (11KM from Madurai City)**  
**SIVAGANGAI DISTRICT, TAMILNADU, INDIA**

**An ISO 9001:2015 Certified Institution**

## **DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING**

Approved by AICTE, New Delhi  
Permanently Affiliated to Anna University, Chennai  
Accredited by NBA up to 30.06.2019  
Recognized Research Centre of Anna University, Chennai

### **STUDENTS HAND BOOK**

**FOR FIRST SEMESTER**  
**ELECTRICAL AND ELECTRONICS ENGINEERING**

**Anna University, Chennai**

**Regulation - 2017**

**(Odd Semester 2017-2018)**

**K.L.N. COLLEGE OF ENGINEERING**  
**Department of Electrical and Electronics Engineering**  
**STUDENTS HAND BOOK**  
**B.E. – EEE – First – Semester – Odd Semester of 2017 – 2018**

**This book contains the following:**

S. NO	CONTENTS	PAGE NO.
1	Vision and Mission of the College and Department	3
2	Program Educational Objectives, Program Specific Outcomes	3
3	Program Outcomes	4
4	Outcome Based Education, Benefits and Significance of accreditation	5
5	Engineering Ethics	7
6	Blooms Taxonomy	9
7	Academic Calendar – 2017 – 2018 (Odd semester)	10
8	Class Time Table	11
9	B.E. – EEE – Syllabus – First Semester	12
10	Anna University - Malpractices and Punishment in University Examinations	24
11	Students Leave application Form	27
12	Norms for attending workshop / seminar/ technical symposium/ conference / technical contest etc.	28
13	OD requisition form	29
14	Bonafide Certificate	30
15	Lecture Schedule, Important questions, Assignment questions & Seminar topics	31
16	A Brief History of the College	40
17	History of the Department	42
18	Salient features of the Department	43
19	Faculty List, Mobile number, Mail ID	45
20	Placement activity reminder	46
21	General Reminders	48
22	Developing Leadership Skills	50
23	All India Installed Capacity (in MW) of Power Stations	53
24	ATI Chennai : Annual Training calendar 2017 – 2018 (Short Term Skill Training Programme)	54

25	List of PSUs through GATE Exam	56
26	Lists of TOP 10 software companies to offer jobs in India	57
27	Lists of TOP 10 core companies to offer Electrical jobs	58
28	Lists of core companies to offer Electrical jobs in India	60
29	Green Energy Companies in India	67
30	Internationally renowned MNC's to offer electrical jobs	69
31	Top core companies in India to offer electrical jobs	69
32	Training and Placement plan	70
33	A ready reckoner for enhancing placement activities	72
34	How to prepare for Anna University Examinations.	76

## VISION AND MISSION OF THE COLLEGE

### VISION

To become a Premier Institute of National Repute by Providing Quality Education, Successful Graduation, Potential Employability and Advanced Research & Development through Academic Excellence.

### MISSION

To Develop and Make Students Competent Professional in the Dynamic Environment in the field of Engineering, Technology and Management by emphasizing Research, Social Concern and Ethical Values through Quality Education System.

## VISION AND MISSION OF THE DEPARTMENT

### VISION

To become a high standard of excellence in Education, Training and Research in the field of Electrical & Electronics Engineering and allied applications.

### MISSION

To produce excellent, innovative and Nationalistic Engineers with Ethical Values and to advance in the field of Electrical & Electronics Engineering and allied areas.

## PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

The Educational Objectives of the Electrical and Electronics Engineering (EEE) Program represent major accomplishments that we expect our graduates to achieve after three to five years of graduation. More specifically our graduates are expected:

**PEO1:** to excel in industrial or graduate work in Electrical and Electronics Engineering and allied fields

**PEO2:** to practice their Professions conforming to Ethical Values and Environmentally friendly policies

**PEO3:** to work in international and multi-disciplinary Environments

**PEO4:** to successfully adapt to evolving Technologies and stay current with their Professions

## PROGRAM SPECIFIC OUTCOMES (PSOs)

Electrical and Electronics Engineering Graduates will be able to:

**PSO1:** Apply the fundamentals of mathematics, science and engineering knowledge to identify, formulate, design and investigate complex engineering problems of electric circuits, analog and digital electronic circuits, electrical machines and power systems.

**PSO2:** Apply appropriate techniques and modern Engineering hardware and software tools in power systems to engage in life- long learning and to successfully adapt in multi disciplinary environments.

**PSO3:** Understand the impact of Professional Engineering solutions in societal and environmental context, commit to professional ethics and communicate effectively.

## PROGRAM OUTCOMES (POs)

Electrical and Electronics Engineering Graduates will be able to:

**PO1: Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

**PO2: Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

**PO3: Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

**PO4: Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

**PO5: Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

**PO6: The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

**PO7: Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

**PO8: Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

**PO9: Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

**PO10: Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

**PO11: Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

**PO12: Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

## **OUTCOME BASED EDUCATION (OBE)**

In a traditional education system, students are given grades and rankings compared to each other. Content and performance expectations are based primarily on what was taught in the past to students of a given age. The goal of traditional education was to present the knowledge and skills of an older generation to the new generation of students, and to provide students with an environment in which to learn. The process paid little attention (beyond the classroom teacher) to whether or not students learn any of the material.

An outcome is a culminating demonstration of learning; it is what the student should be able to do, at the end of a course/program, in-terms of the knowledge, skill and behavior.

Outcome-based education is an approach to education in which decisions about the curriculum are driven by the exit learning outcomes that the students should display at the end of the course. In outcome-based education, product defines process. Outcome-based education can be summed up as results-oriented thinking and is the opposite of input-based education where the emphasis is on the educational process. Outcome-based education promotes fitness for practice and education for capability.

## **BENEFITS AND SIGNIFICANCE OF ACCREDITATION**

The process of accreditation helps in realizing a number of benefits, such as:

- Helps the Institution to know its strengths, weaknesses and opportunities
- Initiates Institutions into innovative and modern methods of pedagogy
- Gives Institutions a new sense of direction and identity
- Provides society with reliable information on quality of education offered
- Promotes intra and inter-Institutional interactions

Accreditation signifies different things to different stakeholders. These are:

### **Benefits to Institutions**

Accreditation is market-driven and has an international focus. It assesses the characteristics of an Institution and its programme against a set of criteria established by National Board of Accreditation. NBA's key objective is to contribute to the significant improvement of the Institutions involved in the accreditation process. Accreditation process quantifies the strengths, weaknesses in the processes adopted by the Institution and provides directions and opportunities for future growth. NBA provides a quality seal or label that differentiates the Institutions from its peers at the national level. This leads to a widespread recognition and greater appreciation of the brand name of Institutions and motivates the Institutions to strive for more.

**Benefits to Students**

Students studying in NBA accredited Institutions can be assured that they will receive education which is a balance between high academic quality and professional relevance and that the needs of the corporate world are well integrated into programs, activities and processes. It signifies that he has entered the portals of an Institution, which has the essential and desirable features of quality professional education.

**Benefits to Employers**

Accreditation assures prospective employers that students come from a programme where the content and quality have been evaluated, satisfying established standards. It also signifies that the students passing out have acquired competence based on well established technical inputs.

**Benefits to the Public**

Accredited status represents the commitment of the programme and the Institution to quality and continuous improvement.

**Catalyst for International Accreditations**

Due to accreditation from NBA, the Institution's systems and procedures get aligned with the Institution's Mission and Vision. All essential prerequisites for international accreditation are included in the accreditation process of NBA. Therefore, NBA acts as a catalyst for the Institutions planning to acquire International Accreditation.

**Benefits to Industry and Infrastructure Providers**

It signifies identification of quality of Institutional capabilities, skills and knowledge.

**Benefits to Parents**

It signifies that their ward goes through a teaching-learning environment as per accepted good practices.

**Benefits to Alumni**

It reassures alumni that alumni are products of an institute with a higher standing in terms of learning.

**Benefits to Country**

Accreditation helps in gaining confidence of stakeholders and in giving a strong message that as a country, our technical manpower is of international standards and can be very useful in enhancing the global mobility for our technical manpower.

## **ENGINEERING ETHICS**

Engineering Ethics is the set of rules and guidelines that engineers adhere to as a moral obligation to their profession and to the world. Engineering is a professional career that impact lives. When ethics is not followed, disaster often occurs; these disasters not only include huge monetary costs and environmental impacts, but also often result in the loss of human life. Engineering Ethics applies to every engineer and is very important.

The National Society of Professional Engineers (NSPE) decides the overall standards and codes of ethics for all the engineering professions. The Preamble of the NSPE *Code of Conduct for Engineers* (2007) states: “*Engineers shall at all times recognize that their primary obligation is to protect the safety, health, property, and welfare of the public. If their professional judgment is overruled under circumstances where the safety, health, property, or welfare of the public are endangered, they shall notify their employer or client and such other authority as may be appropriate.*”

### **Electrical Engineering Ethics**

Electrical Engineering is a type of engineering profession that deals with the creation of better electronics. Since our society is heading towards an era of technology, where all members of society will be affected, it is especially important for electrical engineers to follow a code of engineering ethics. For electrical engineers, an important set of guidelines is the [\*Electrical Engineering Code of Ethics\*](#), published by IEEE.

### **IEEE code of Ethics**

We, the members of the IEEE, in recognition of the importance of our technologies in affecting the quality of life throughout the world, and in accepting a personal obligation to our profession, its members and the communities we serve, do hereby commit ourselves to the highest ethical and professional conduct and agree:

1. to accept responsibility in making decisions consistent with the safety, health, and welfare of the public, and to disclose promptly factors that might endanger the public or the environment;
2. to avoid real or perceived conflicts of interest whenever possible, and to disclose them to affected parties when they do exist;
3. to be honest and realistic in stating claims or estimates based on available data;
4. to reject bribery in all its forms;
5. to improve the understanding of technology; its appropriate application, and potential consequences;
6. to maintain and improve our technical competence and to undertake technological tasks for others only if qualified by training or experience, or after full disclosure of pertinent limitations;

7. to seek, accept, and offer honest criticism of technical work, to acknowledge and correct errors, and to credit properly the contributions of others;
8. to treat fairly all persons and to not engage in acts of discrimination based on race, religion, gender, disability, age, national origin, sexual orientation, gender identity, or gender expression;
9. to avoid injuring others, their property, reputation, or employment by false or malicious action;
10. to assist colleagues and co-workers in their professional development and to support them in following this code of ethics.

### **Engineering Ethics in College/Education**

The main engineering ethics problem that college students are face with is academic integrity. Academic integrity can show itself in the form of cheating by copying someone's work, intentional cheating, plagiarism, and/or self-plagiarism.

However, professional ethics is something that can be learned even when it conflicts with personal ethics, as for example, a situation where you are personally okay with building a product that can harm the environment, yet save lives. You can learn professional ethics and realize that something that is harmful to the environment is not okay. Ethics codes can even help you see the bigger picture. For example, in the previous scenario, these codes can help you re-evaluate your ethics and realize that something that is harmful to the environment will eventually be harmful to the people around you and yourself.

### **Engineering Ethics in the Professional World**

In the professional world, ethical engineering problems come up in many cases. One of these includes the case of a professional using someone else's work that is published in the widespread market of publication. Another is the case of a professional using someone else's work that is not published yet and stealing their idea. Engineers who have good engineering ethics often have a good sense of the value of life. They don't hesitate to admit that they made a mistake because they know that the cost of not owning up to your mistakes can have disastrous consequences. It might even cost a human life.

### **Engineering Ethics in Companies**

Not only do individual engineers have to be conscious of engineering ethics, but also companies. Companies have to be aware of their Corporate Social Responsibility and Environmental Responsibility. Corporate Social Responsibility is a company's responsibility to give back to the community that they profit from and to behave ethically so that both they and their community can benefit. Environmental Responsibility is a business's initiative to leave the environment (where it is taking its resources from) the same, if not better, that it is found it.

## BLOOM'S TAXONOMY

### *Definitions of the different levels of thinking skills in Bloom's taxonomy*

1. **Remember** – recalling relevant terminology, specific facts, or different procedures related to information and/or course topics. At this level, a student can remember something, but may not really understand it.
2. **Understand** – the ability to grasp the meaning of information (facts, definitions, concepts, etc.) that has been presented.
3. **Apply** – being able to use previously learned information in different situations or in problem solving.
4. **Analyze** – the ability to break information down into its component parts. Analysis also refers to the process of examining information in order to make conclusions regarding cause and effect, interpreting motives, making inferences, or finding evidence to support statements/arguments.
5. **Evaluate** – being able to judge the value of information and/or sources of information based on personal values or opinions.
6. **Create** – the ability to creatively or uniquely apply prior knowledge and/or skills to produce new and original thoughts, ideas, processes, etc. At this level, students are involved in creating their own thoughts and ideas.

### **List of Action Words Related to Critical Thinking Skills**

**OBJECTIVES:**

- To develop the basic reading and writing skills of first year engineering and technology students.
- To help learners develop their listening skills, which will, enable them listen to lectures and comprehend them by asking questions; seeking clarifications.
- To help learners develop their speaking skills and speak fluently in real contexts.
- To help learners develop vocabulary of a general kind by developing their reading skills

**UNIT I SHARING INFORMATION RELATED TO ONESELF/FAMILY& FRIENDS 12**

**Reading-** short comprehension passages, practice in skimming-scanning and predicting- **Writing-** completing sentences- - developing hints. **Listening-** short texts- short formal and informal conversations. **Speaking-** introducing oneself - exchanging personal information- **Language development-** Wh- Questions- asking and answering-yes or no questions- parts of speech. **Vocabulary development--** prefixes- suffixes- articles.- count/ uncount nouns.

**UNIT II GENERAL READING AND FREE WRITING 12**

**Reading** - comprehension-pre-reading-post reading- comprehension questions (multiple choice questions and /or short questions/ open-ended questions)-inductive reading- short narratives and descriptions from newspapers including dialogues and conversations (also used as short Listening texts)- register- **Writing** – paragraph writing- topic sentence- main ideas- free writing, short narrative descriptions using some suggested vocabulary and structures –**Listening-** telephonic conversations. **Speaking** – sharing information of a personal kind—greeting – taking leave- **Language development** – prepositions, conjunctions **Vocabulary development-** guessing meanings of words in context.

**UNIT III GRAMMAR AND LANGUAGE DEVELOPMENT 12**

**Reading**- short texts and longer passages (close reading) **Writing**- understanding text structure- use of reference words and discourse markers-coherence-jumbled sentences **Listening** – listening to longer texts and filling up the table- product description- narratives from different sources. **Speaking**- asking about routine actions and expressing opinions. **Language development**- degrees of comparison- pronouns- direct vs indirect questions- **Vocabulary development** – single word substitutes- adverbs.

**UNIT IV READING AND LANGUAGE DEVELOPMENT 12**

**Reading**- comprehension-reading longer texts- reading different types of texts- magazines **Writing**- letter writing, informal or personal letters-e-mails-conventions of personal email- **Listening**- listening to dialogues or conversations and completing exercises based on them. **Speaking**- speaking about oneself- speaking about one's friend- **Language development**- Tenses- simple present-simple past-present continuous and past continuous- **Vocabulary development**- synonyms-antonyms- phrasal verbs

**UNIT V EXTENDED WRITING 12**

**Reading**- longer texts- close reading –**Writing**- brainstorming -writing short essays – developing an outline- identifying main and subordinate ideas- dialogue writing-**Listening** – listening to talks-conversations- **Speaking** – participating in conversations- short group conversations-**Language development**-modal verbs- present/ past perfect tense - **Vocabulary development**-collocations-fixed and semi-fixed expressions

**TOTAL: 60 PERIODS**

**OUTCOMES: At the end of the course, learners will be able to:**

- Read articles of a general kind in magazines and newspapers.
- Participate effectively in informal conversations; introduce themselves and their friends and express opinions in English.
- Comprehend conversations and short talks delivered in English
- Write short essays of a general kind and personal letters and emails in English.

**TEXT BOOKS:**

1. Board of Editors. **Using English A Coursebook for Undergraduate Engineers and Technologists**. Orient BlackSwan Limited, Hyderabad: 2015
2. Richards, C. Jack. **Interchange Students' Book-2** New Delhi: CUP, 2015.

**OBJECTIVES :**

- The goal of this course is to achieve conceptual understanding and to retain the best traditions of traditional calculus. The syllabus is designed to provide the basic tools of calculus mainly for the purpose of modelling the engineering problems mathematically and obtaining solutions. This is a foundation course which mainly deals with topics such as single variable and multivariable calculus and plays an important role in the understanding of science, engineering, economics and computer science, among other disciplines.

**UNIT I DIFFERENTIAL CALCULUS****12**

Representation of functions - Limit of a function - Continuity - Derivatives - Differentiation rules - Maxima and Minima of functions of one variable.

**UNIT II FUNCTIONS OF SEVERAL VARIABLES****12**

Partial differentiation – Homogeneous functions and Euler’s theorem – Total derivative – Change of variables – Jacobians – Partial differentiation of implicit functions – Taylor’s series for functions of two variables – Maxima and minima of functions of two variables – Lagrange’s method of undetermined multipliers.

**UNIT III INTEGRAL CALCULUS****12**

Definite and Indefinite integrals - Substitution rule - Techniques of Integration - Integration by parts, Trigonometric integrals, Trigonometric substitutions, Integration of rational functions by partial fraction, Integration of irrational functions - Improper integrals.

**UNIT IV MULTIPLE INTEGRALS****12**

Double integrals – Change of order of integration – Double integrals in polar coordinates – Area enclosed by plane curves – Triple integrals – Volume of solids – Change of variables in double and triple integrals.

**UNIT V DIFFERENTIAL EQUATIONS****12**

Higher order linear differential equations with constant coefficients - Method of variation of parameters – Homogenous equation of Euler’s and Legendre’s type – System of simultaneous linear differential equations with constant coefficients - Method of undetermined coefficients.

**TOTAL : 60 PERIODS****OUTCOMES :**

After completing this course, students should demonstrate competency in the following skills:

- Use both the limit definition and rules of differentiation to differentiate functions.
- Apply differentiation to solve maxima and minima problems.
- Evaluate integrals both by using Riemann sums and by using the Fundamental Theorem of Calculus.
- Apply integration to compute multiple integrals, area, volume, integrals in polar coordinates, in addition to change of order and change of variables.
- Evaluate integrals using techniques of integration, such as substitution, partial fractions and integration by parts.

- Determine convergence/divergence of improper integrals and evaluate convergent improper integrals.
- Apply various techniques in solving differential equations.

**PH8151**

**ENGINEERING PHYSICS**

L	T	P	C
3	0	0	3

### OBJECTIVES:

- To enhance the fundamental knowledge in Physics and its applications relevant to various streams of Engineering and Technology.

### UNIT I                    PROPERTIES OF MATTER

**9**

Elasticity – Stress-strain diagram and its uses - factors affecting elastic modulus and tensile strength – torsional stress and deformations – twisting couple - torsion pendulum: theory and experiment - bending of beams - bending moment – cantilever: theory and experiment – uniform and non-uniform bending: theory and experiment - I-shaped girders - stress due to bending in beams.

### UNIT II                    WAVES AND FIBER OPTICS

**9**

Oscillatory motion – forced and damped oscillations: differential equation and its solution – plane progressive waves – wave equation. Lasers : population of energy levels, Einstein’s A and B coefficients derivation – resonant cavity, optical amplification (qualitative) – Semiconductor lasers: homojunction and heterojunction – Fiber optics: principle, numerical aperture and acceptance angle - types of optical fibres (material, refractive index, mode) – losses associated with optical fibers - fibre optic sensors: pressure and displacement.

### UNIT III                    THERMAL PHYSICS

**9**

Transfer of heat energy – thermal expansion of solids and liquids – expansion joints - bimetallic strips - thermal conduction, convection and radiation – heat conduction in solids – thermal conductivity - Forbe’s and Lee’s disc method: theory and experiment - conduction through compound media (series and parallel) – thermal insulation – applications: heat exchangers, refrigerators, ovens and solar water heaters.

**UNIT IV QUANTUM PHYSICS****9**

Black body radiation – Planck's theory (derivation) – Compton effect: theory and experimental verification – wave particle duality – electron diffraction – concept of wave function and its physical significance – Schrödinger's wave equation – time independent and time dependent equations – particle in a one-dimensional rigid box – tunnelling (qualitative) - scanning tunnelling microscope.

**UNIT V CRYSTAL PHYSICS****9**

Single crystalline, polycrystalline and amorphous materials – single crystals: unit cell, crystal systems, Bravais lattices, directions and planes in a crystal, Miller indices – inter-planar distances - coordination number and packing factor for SC, BCC, FCC, HCP and diamond structures - crystal imperfections: point defects, line defects – Burger vectors, stacking faults – role of imperfections in plastic deformation - growth of single crystals: solution and melt growth techniques.

**TOTAL : 45 PERIODS****OUTCOMES:**

Upon completion of this course,

- the students will gain knowledge on the basics of properties of matter and its applications,
- the students will acquire knowledge on the concepts of waves and optical devices and their applications in fibre optics,
- the students will have adequate knowledge on the concepts of thermal properties of materials and their applications in expansion joints and heat exchangers,
- the students will get knowledge on advanced physics concepts of quantum theory and its applications in tunneling microscopes, and
- the students will understand the basics of crystals, their structures and different crystal growth techniques.

**TEXT BOOKS:**

1. Bhattacharya, D.K. & Poonam, T. "Engineering Physics". Oxford University Press, 2015.
2. Gaur, R.K. & Gupta, S.L. "Engineering Physics". Dhanpat Rai Publishers, 2012.
3. Pandey, B.K. & Chaturvedi, S. "Engineering Physics". Cengage Learning India, 2012.

3. Tipler, P.A. & Mosca, G. "Physics for Scientists and Engineers with Modern Physics". W.H.Freeman, 2007.

**OBJECTIVES:**

- To make the students conversant with boiler feed water requirements, related problems and water treatment techniques.
- To develop an understanding of the basic concepts of phase rule and its applications to single and two component systems and appreciate the purpose and significance of alloys.
- Preparation, properties and applications of engineering materials.
- Types of fuels, calorific value calculations, manufacture of solid, liquid and gaseous fuels.
- Principles and generation of energy in batteries, nuclear reactors, solar cells, wind mills and fuel cells.

**UNIT I WATER AND ITS TREATMENT****9**

Hardness of water – types – expression of hardness – units – estimation of hardness of water by EDTA – numerical problems – boiler troubles (scale and sludge) – treatment of boiler feed water – Internal treatment (phosphate, colloidal, sodium aluminate and calgon conditioning) external treatment

– Ion exchange process, zeolite process – desalination of brackish water - Reverse Osmosis.

**UNIT II SURFACE CHEMISTRY AND CATALYSIS****9**

Adsorption: Types of adsorption – adsorption of gases on solids – adsorption of solute from solutions – adsorption isotherms – Freundlich's adsorption isotherm – Langmuir's adsorption isotherm – contact theory – kinetics of surface reactions, unimolecular reactions, Langmuir - applications of adsorption on pollution abatement.

Catalysis: Catalyst – types of catalysis – criteria – autocatalysis – catalytic poisoning and catalytic promoters - acid base catalysis – applications (catalytic convertor) – enzyme catalysis– Michaelis – Menten equation.

**UNIT III ALLOYS AND PHASE RULE****9**

Alloys: Introduction- Definition- properties of alloys - significance of alloying, functions and effect of alloying elements- Nichrome and stainless steel (18/8) – heat treatment of steel. Phase rule: Introduction, definition of terms with examples, one component system -water system - reduced phase rule - thermal analysis and cooling curves - two component systems - lead-silver system - Pattinson process.

**UNIT IV FUELS AND COMBUSTION****9**

Fuels: Introduction - classification of fuels - coal - analysis of coal (proximate and ultimate) - carbonization - manufacture of metallurgical coke (Otto Hoffmann method) - petroleum - manufacture of synthetic petrol (Bergius process) - knocking - octane number - diesel oil - cetane number - natural gas - compressed natural gas (CNG) - liquefied petroleum gases (LPG) - power alcohol and biodiesel. Combustion of fuels: Introduction - calorific value - higher and lower calorific values- theoretical calculation of calorific value - ignition temperature - spontaneous ignition temperature - explosive range - flue gas analysis (ORSAT Method).

**UNIT V ENERGY SOURCES AND STORAGE DEVICES****9**

Nuclear fission - controlled nuclear fission - nuclear fusion - differences between nuclear fission and fusion - nuclear chain reactions - nuclear energy - light water nuclear power plant - breeder reactor - solar energy conversion - solar cells - wind energy. Batteries, fuel cells and supercapacitors: Types of batteries – primary battery (dry cell) secondary battery (lead acid battery, lithium-ion-battery) fuel cells – H<sub>2</sub>-O<sub>2</sub> fuel cell.

**TOTAL: 45 PERIODS**

**OUTCOMES:**

- The knowledge gained on engineering materials, fuels, energy sources and water treatment techniques will facilitate better understanding of engineering processes and applications for further learning.

**TEXT BOOKS:**

**GE8151****PROBLEM SOLVING AND PYTHON PROGRAMMING****L T P C****3 0 0 3****COURSE OBJECTIVES:**

- To know the basics of algorithmic problem solving
- To read and write simple Python programs.
- To develop Python programs with conditionals and loops.
- To define Python functions and call them.
- To use Python data structures — lists, tuples, dictionaries.
- To do input/output with files in Python.

**UNIT I ALGORITHMIC PROBLEM SOLVING****9**

Algorithms, building blocks of algorithms (statements, state, control flow, functions), notation (pseudo code, flow chart, programming language), algorithmic problem solving, simple strategies for developing algorithms (iteration, recursion). Illustrative problems: find minimum in a list, insert a card in a list of sorted cards, guess an integer number in a range, Towers of Hanoi.

**UNIT II DATA, EXPRESSIONS, STATEMENTS****9**

Python interpreter and interactive mode; values and types: int, float, boolean, string, and list; variables, expressions, statements, tuple assignment, precedence of operators, comments; modules and functions, function definition and use, flow of execution, parameters and arguments; Illustrative programs: exchange the values of two variables, circulate the values of n variables, distance between two points.

**UNIT III CONTROL FLOW, FUNCTIONS****9**

Conditionals: Boolean values and operators, conditional (if), alternative (if-else), chained conditional (if-elif-else); Iteration: state, while, for, break, continue, pass; Fruitful functions: return values, parameters, local and global scope, function composition, recursion; Strings: string slices, immutability, string functions and methods, string module; Lists as arrays. Illustrative programs: square root, gcd, exponentiation, sum an array of numbers, linear search, binary search.

**UNIT IV LISTS, TUPLES, DICTIONARIES****9**

Lists: list operations, list slices, list methods, list loop, mutability, aliasing, cloning lists, list parameters;

Tuples: tuple assignment, tuple as return value; Dictionaries: operations and methods; advanced list processing - list comprehension; Illustrative programs: selection sort, insertion sort, mergesort, histogram.

## **UNIT V FILES, MODULES, PACKAGES**

**9**

Files and exception: text files, reading and writing files, format operator; command line arguments, errors and exceptions, handling exceptions, modules, packages; Illustrative programs: word count, copy file.

### **COURSE OUTCOMES:**

**Upon completion of the course, students will be able to**

- Develop algorithmic solutions to simple computational problems
- Read, write, execute by hand simple Python programs.
- Structure simple Python programs for solving problems.
- Decompose a Python program into functions.
- Represent compound data using Python lists, tuples, dictionaries.
- Read and write data from/to files in Python Programs.

**TOTAL : 45 PERIODS**

### **TEXT BOOKS:**

6. Timothy A. Budd, "Exploring Python", Mc-Graw Hill Education (India) Private Ltd.,, 2015.

**OBJECTIVES:**

- To develop in students, graphic skills for communication of concepts, ideas and design of Engineering products.
- To expose them to existing national standards related to technical drawings.

**CONCEPTS AND CONVENTIONS (Not for Examination)****1**

Importance of graphics in engineering applications – Use of drafting instruments – BIS conventions and specifications – Size, layout and folding of drawing sheets – Lettering and dimensioning.

**UNIT I PLANE CURVES AND FREEHAND SKETCHING****7+12**

Basic Geometrical constructions, Curves used in engineering practices: Conics – Construction of ellipse, parabola and hyperbola by eccentricity method – Construction of cycloid – construction of involutes of square and circle – Drawing of tangents and normal to the above curves.

Visualization concepts and Free Hand sketching: Visualization principles –Representation of Three Dimensional objects – Layout of views- Freehand sketching of multiple views from pictorial views of objects

**UNIT II PROJECTION OF POINTS, LINES AND PLANE SURFACE****6+12**

Orthographic projection- principles-Principal planes-First angle projection-projection of points. Projection of straight lines (only First angle projections) inclined to both the principal planes - Determination of true lengths and true inclinations by rotating line method and traces Projection of planes (polygonal and circular surfaces) inclined to both the principal planes by rotating object method.

**UNIT III PROJECTION OF SOLIDS****5+12**

Projection of simple solids like prisms, pyramids, cylinder, cone and truncated solids when the axis is inclined to one of the principal planes by rotating object method.

**UNIT IV PROJECTION OF SECTIONED SOLIDS AND DEVELOPMENT OF SURFACES****5+12**

Sectioning of above solids in simple vertical position when the cutting plane is inclined to the one of the principal planes and perpendicular to the other – obtaining true shape of section. Development of lateral surfaces of simple and sectioned solids – Prisms, pyramids cylinders and cones.

**UNIT V ISOMETRIC AND PERSPECTIVE PROJECTIONS****6+12**

Principles of isometric projection – isometric scale –Isometric projections of simple solids and truncated solids - Prisms, pyramids, cylinders, cones- combination of two solid objects in simple vertical positions - Perspective projection of simple solids-Prisms, pyramids and cylinders by visual ray method .

**TOTAL: 90 PERIODS****OUTCOMES:**

On successful completion of this course, the student will be able to

- familiarize with the fundamentals and standards of Engineering graphics
- perform freehand sketching of basic geometrical constructions and multiple views of objects.
- project orthographic projections of lines and plane surfaces.
- draw projections and solids and development of surfaces.
- visualize and to project isometric and perspective sections of simple solids.

5. IS 15021 (Parts 1 to 4) – 2001: Technical drawings – Projection Methods.

**Special points applicable to University Examinations on Engineering Graphics:**

1. There will be five questions, each of either or type covering all units of the syllabus.
2. All questions will carry equal marks of 20 each making a total of 100.
3. The answer paper shall consist of drawing sheets of A3 size only. The students will be permitted to use appropriate scale to fit solution within A3 size.
4. The examination will be conducted in appropriate sessions on the same day

**GE8161****PROBLEM SOLVING AND PYTHON PROGRAMMING  
LABORATORY****LT P C  
0 0 4 2****COURSE OBJECTIVES:**

- To write, test, and debug simple Python programs.
- To implement Python programs with conditionals and loops.
- Use functions for structuring Python programs.
- Represent compound data using Python lists, tuples, dictionaries.
- Read and write data from/to files in Python.

## LIST OF PROGRAMS

1. Compute the GCD of two numbers.
2. Find the square root of a number (Newton's method)
3. Exponentiation (power of a number)
4. Find the maximum of a list of numbers
5. Linear search and Binary search
6. Selection sort, Insertion sort
7. Merge sort
8. First n prime numbers
9. Multiply matrices
10. Programs that take command line arguments (word count)
11. Find the most frequent words in a text read from a file
12. Simulate elliptical orbits in Pygame
13. Simulate bouncing ball using Pygame

## PLATFORM NEEDED

Python 3 interpreter for Windows/Linux

## COURSE OUTCOMES:

Upon completion of the course, students will be able to

- Write, test, and debug simple Python programs.
- Implement Python programs with conditionals and loops.
- Develop Python programs step-wise by defining functions and calling them.
- Use Python lists, tuples, dictionaries for representing compound data.
- Read and write data from/to files in Python.

**TOTAL :60 PERIODS**

**BS8161**

**PHYSICS AND CHEMISTRY LABORATORY**

**L T P C**

**(Common to all branches of B.E. / B.Tech Programmes)**

**0 0 4 2**

## OBJECTIVES:

- To introduce different experiments to test basic understanding of physics concepts applied in optics, thermal physics, properties of matter and liquids.

### LIST OF EXPERIMENTS: PHYSICS LABORATORY (Any 5 Experiments)

1. Determination of rigidity modulus – Torsion pendulum
2. Determination of Young's modulus by non-uniform bending method
3. (a) Determination of wavelength, and particle size using Laser  
(b) Determination of acceptance angle in an optical fiber.
4. Determination of thermal conductivity of a bad conductor – Lee's Disc method.
5. Determination of velocity of sound and compressibility of liquid – Ultrasonic interferometer
6. Determination of wavelength of mercury spectrum – spectrometer grating
7. Determination of band gap of a semiconductor
8. Determination of thickness of a thin wire – Air wedge method

**TOTAL: 30 PERIODS**

## OUTCOMES:

Upon completion of the course, the students will be able to

- apply principles of elasticity, optics and thermal properties for engineering applications.

## **CHEMISTRY LABORATORY: (Any seven experiments to be conducted)**

### **OBJECTIVES:**

- To make the student to acquire practical skills in the determination of water quality parameters through volumetric and instrumental analysis.
  - To acquaint the students with the determination of molecular weight of a polymer by viscometry.
1. Estimation of HCl using  $\text{Na}_2\text{CO}_3$  as primary standard and Determination of alkalinity in water sample.
  2. Determination of total, temporary & permanent hardness of water by EDTA method.
  3. Determination of DO content of water sample by Winkler's method.
  4. Determination of chloride content of water sample by argentometric method.
  5. Estimation of copper content of the given solution by Iodometry.
  6. Determination of strength of given hydrochloric acid using pH meter.
  7. Determination of strength of acids in a mixture of acids using conductivity meter.
  8. Estimation of iron content of the given solution using potentiometer.
  9. Estimation of iron content of the water sample using spectrophotometer (1, 10-Phenanthroline / thiocyanate method).
  10. Estimation of sodium and potassium present in water using flame photometer.
  11. Determination of molecular weight of polyvinyl alcohol using Ostwald viscometer.
  12. Pseudo first order kinetics-ester hydrolysis.
  13. Corrosion experiment-weight loss method.
  14. Determination of CMC.
  15. Phase change in a solid.
  16. Conductometric titration of strong acid vs strong base.

### **OUTCOMES:**

- The students will be outfitted with hands-on knowledge in the quantitative chemical analysis of water quality related parameters.

**TOTAL: 30 PERIODS**

### **TEXTBOOKS:**

1. Vogel's Textbook of Quantitative Chemical Analysis (8<sup>TH</sup> edition, 2014)

**ANNA UNIVERTISY, CHENNAI -25.  
OFFICE OF THE CONTROLLER OF EXAMINATIONS**

**RULES OF THE EXAMINATIONS**

A candidate is permitted to use geometric tools, non-programmable calculators and approved tables and data books only during the theory and the practical examinations. No other material/gadget (including cell phone) should be brought inside the examination hall.

A candidate should neither possess/refer any forbidden material in any form nor should seek/obtain assistance in any form from any person/source towards answering the questions during the examinations. He/she should not assist other candidates in any form towards answering the questions during the examinations. The candidate should not reveal his/her identity in any form in the answer scripts. The candidate should not indulge in canvassing either directly or indirectly to award more than deserving marks in the examinations. The candidate should maintain discipline and decorum during the examinations.

Violation of the above rules in any form during the examinations will attract punishment ranging from levying fine to permanently debarring the candidate from continuing his/her studies as given below.

Sl.No.	Nature of Malpractice	Maximum Punishment
1	Appeal by the candidate in the answer script to show mercy by way of awarding more than deserving marks.	Fine of Rs. 1000/- per subject.
2	The candidate writing his/her name in the answer script.	
3	The candidate writing his/her registration number/college name in places other than specified in the answer script	
4	Any special marking in the answer script by the candidate.	
5	The candidate communicating with neighbouring candidate orally or non-verbally; the candidate causing suspicious movement of his/her body.	
6	Irrelevant writing by the candidate in the answer script.	
7	The candidate marking on the question paper or writing answer on his/her question paper or making use of his/her question paper for rough work	
8	The candidate possessing cell phones/programmable calculator(s)/any other electronic storage device(s) <b>gadgets</b>	Invalidating the examination of the particular subject written by the candidate
9	The Candidate facilitating the other candidate(s) to copy from his /her answer script	

10	The candidate possessing any incriminating material(s) (whether used or not). For example:- Written or printed materials, bits of papers containing written information, writings on scale, calculator, handkerchief, dress, part of the body, Hall Ticket, etc.	<p>Invalidating the examinations of the subject concerned and all the theory and the practical subjects of the current semester registered by the candidate.</p> <p>Further the candidate is not considered for revaluation of answer scripts of the arrears-subjects.</p> <p>If the candidate has registered for arrears – subjects only, invalidating the examinations of all the arrears – subjects registered by the candidate.</p>	
11	The candidate possessing cell phone(s)/programmable calculator(s)/any other electronic storage device(s) <b>gadgets</b> and containing incriminating materials (whether used or not).		
12	The Candidate possessing the question paper of another candidate with additional writing on it.		
13	The candidate passing his/her question paper to another candidate with additional writing on it		
14	The candidate passing incriminating materials brought into the examination hall in any medium (hard/soft) to other candidate(s).		
15	The candidate copying from neighbouring candidate.		
16	The candidate taking out of the examination hall answer booklet(s), used or unused		
17	Appeal by the candidate in the answer script coupled with a promise of any form of consideration.	<p>Invalidating the examinations of the subject concerned and all the theory and the practical subjects of the current semester registered by the candidate.</p> <p>Further the candidate is not considered for revaluation of answer scripts of the arrears-subjects.</p> <p>If the candidate has registered for arrears – subjects only, invalidating the examinations of all the arrears – subjects registered by the candidate.</p> <p><b>Additional Punishment:</b></p> <p>1. if the candidate has not completed the programme, he/she is debarred from continuing his/her studies for one year i.e., for two subsequent semesters. However the student is permitted to appear for the examination in all the arrears-subjects up to the last semester during the debarred period.</p> <p>2. if the candidate has completed the programme, he/she is prevented from writing the examinations of the arrears-subjects for two subsequent semesters.</p>	
18	Candidate destroying evidence relating to an alleged irregularity.		
19	Vulgar/offensive writings by the candidate in the answer script.		
20	The candidate possessing the answering script of another candidate		
21	The candidate passing his /her answer script to another candidate		
			Invalidating the examinations of all the theory and practical subjects of the current semester and all the arrears –subjects registered by the candidate.

22	Involved in any one or more of the malpractices of serial no. 8 to 21 for the second or subsequent times.	Invalidating the examinations of all the theory and practical subjects of the current semester and all the arrears –subjects registered by the candidate.
23	The candidate substituting an answer book let prepared outside the examination hall for the one already distributed to the candidate	<p><b>Additional Punishment:</b></p> <p>(i) If the candidate has not completed the programme, he/she is debarred from continuing his/her studies for one year i.e., for two subsequent semesters. However the student is permitted to appear for the examination in all the arrears-subjects up to the last semester during the debarred period.</p> <p>(ii) If the candidate has completed the programme, he/she is prevented from writing the examinations of the arrears-subjects for two subsequent semesters.</p>
24	The candidate indulge in any disruptive conduct including, but not limited to, shouting, assault of invigilator, officials or students using abusive and /or threatening language, destruction of property.	Invalidating the examinations of all the theory and practical subjects of the current semester and all the arrears –subjects registered by the candidate.
25	The candidate harass or engage others to harass on his/her behalf an invigilator, official, witnesses or any other person in relation to an irregularity by making telephone calls, visits, mails or by any other means.	<p><b>Additional Punishment:</b></p> <p>(i) if the candidate has not completed the programme, he/she is debarred from continuing his/her studies for <b>two years</b> i.e., for four subsequent semesters. However the student is permitted to appear for the examination in all the arrears-subjects up to the last semester during the debarred period.</p> <p>(ii) if the candidate has completed the programme, he/she is prevented from writing the examinations of the arrears-subjects for four subsequent semesters.</p>
26	Candidate possessing any firearm/weapon inside the examination hall.	<p>(i) if the candidate has not completed the programme, he/she is debarred from continuing his/her studies for <b>two years</b> i.e., for four subsequent semesters. However the student is permitted to appear for the examination in all the arrears-subjects up to the last semester during the debarred period.</p> <p>(ii) if the candidate has completed the programme, he/she is prevented from writing the examinations of the arrears-subjects for four subsequent semesters.</p>
27	Cases of Impersonation	<p>(i)Handing over the impersonator to the police with a complaint to take appropriate action against the person involved in the impersonation by the Chief Supt.</p> <p>(ii)If a student of this University is found to impersonate a ‘bonafide student’, the impersonating student is debarred from continuing his/her studies and writing the examinations <b>permanently</b>. He/she is not eligible for any further admission to any programme of the University.</p> <p>(iii)Debarring the ‘bonafide student’ for whom the impersonation was done from continuing his/her studies and writing the examinations <b>permanently</b>. He/she is not eligible for any further admission to any programme of the University.</p>

**CONTROLLER OF EXAMINATIONS**

**K.L.N. COLLEGE OF ENGINEERING, Pottapalayam 630612  
(11 km from Madurai City)**

**STUDENTS LEAVE APPLICATION FORM**

**Department of Electrical and Electronics Engineering**

**NORMS FOR ATTENDING WORKSHOP / SEMINAR/ TECHNICAL SYMPOSIUM/  
CONFERENCE / TECHNICAL CONTEST etc.**

Students are regularly encouraged to attend skill development programme such as workshop / seminar / Technical Symposium / Conference / Technical Contest etc., outside the college. This is to facilitate to improve their technical skills and competency. However, frequently attending such events will reduce their academic performance, as they are not consistent in attending regular Theory / Practical classes. Also, it was reported that, few students were absent for class tests /CIT's and regular practical classes, in order to attend such skill development programme. Hence, the following norms are framed, in order to balance the academic performance and facilitate the students to attend skill development programme.

1. A student will be permitted, to attend skill development programme, not **more than three events per semester (6 days – OD- maximum)**.
2. Academic performance of the students will be considered, before permitting a student to attend skill development programme (**Upto 3 arrears, passed 4 subjects in Class test / CIT's – only will be permitted**).
3. Attendance of the student should **not be less than 90% as on date**.
4. No history of disciplinary action taken on the students.
5. Students will not be permitted during Class test / Centralized Internal Test to attend Skill development programme. However students with high academic performance will be permitted, considering the nature of the event during class tests.
6. Students will be permitted to attend such events, only in the higher learning Institutions. (IITs, IISC, NITs, Anna University, MIT, NAAC accredited (A grade), Deemed Universities, NBA accredited, Government & Government Aided Institutions and Self financing Engineering Colleges).
7. Students are instructed to refer the academic calendar of the College, regularly so as to know the Internal test schedule and other events.
8. Students registering any events, without following above norms and not obtaining prior permission, **will not be granted ON DUTY and no RETEST** will be conducted. Necessary action will be taken against defaulters.
9. ON DUTY form is revised, accordingly, in order to incorporate all the above details.
10. Class Co-ordinators / Academic Co-ordinators are instructed to recommend for OD, as per the above norms.

**HOD/EEE**

**K.L.N.COLLEGE OF ENGINEERING  
DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING**

Format No.: F127

**ON DUTY REQUISITION FORM  
STUDENTS – TO ATTEND SKILL DEVELOPMENT PROGRAMMES  
(Workshop / Seminar / Symposium etc.)**

Date: \_\_\_\_\_

To,  
The Principal,  
KLNCE,  
Pottapalayam.

Respected Sir,

Sub.: Request for OD to attend \_\_\_\_\_  
(Workshop / Conference / Value added course / Symposium / Project Contest / Seminar / Certificate Course /  
In-plant training / Internship)

As, I am going to attend \_\_\_\_\_ conducted by  
\_\_\_\_\_ (Venue & Place)  
from \_\_\_\_\_ to \_\_\_\_\_. Please permit me to attend the programme and also grant me  
O.D. for these days.

S.No	Roll No.	Name & (Degree, Semester / Section)	No. of Programmes already attended & Days OD availed	No. of Arrears in AU Exam	No. of subjects failed in Class Test	No. of Subjects failed in CIT's	ATT % As on	Sign

Discipline / misbehavior, reported if any :

**Lecture Schedule**

Course/Branch : **B.E / EEE**      Subject: **Problem Solving & Python Programming**      Duration: **Sep-Dec 2017**  
 Subject Code : **GE8151**      Semester: **I**      Section: **A & B**      Regulation: **2017 (AUC)**  
 Staff Handling : **M.S.C. Sujitha & R. Divya**

**AIM**

To expose the students to the concept of algorithmic problem solving & to develop programs logically using Python.

**PRE-REQUISITE** : Basic Knowledge of Computer

**OBJECTIVES**

- To know the basics of algorithmic problem solving
- To read and write simple Python programs.
- To develop Python programs with conditionals and loops.
- To define Python functions and call them.
- To use Python data structures – lists, tuples, dictionaries.
- To do input/output with files in Python.

**COURSE OUTCOMES:** After the course, the student should be able to:

Course	Course Outcome	POs	PSOs
C105.1	Develop algorithmic solutions to simple computational problems.	1,2,3,6,12	1
C105.2	Demonstrate programs using simple Python statements and expressions.	1,2,3,5,6,12	1,2
C105.3	Explain control flow and functions concept in Python for solving problems.	1,2,3,5,6,12	1,2
C105.4	Use Python data structures – lists, tuples & dictionaries for representing compound data.	1,2,3,5,6,12	1,2
C105.5	Explain files, exception, modules and packages in Python for solving problems.	1,2,3,4,5,6,12	1,2

S. No.	Date	Period Number	Topics to be Covered	Book No [Page No]
<b>UNIT I - ALGORITHMIC PROBLEM SOLVING</b>				<b>Target periods : 11</b>
1.			Introduction - Problem Solving Process	R4 [77-78]
2.			Problem Solving Methodology – Problem Analysis, Program Design, Implementation & Testing	R1 [17-22]
3.			Algorithms – Definition, Characteristics, Qualities of a good algorithm	R5 [1.17-1.18]
4.			Building blocks of algorithms - Statements, Sequential Control, Conditional Control	R5 [1.19-1.21]
5.			Building blocks of algorithms - Control flow & Functions	R5 [1.21-1.24]
6.			Notations - Pseudo code – Guidelines, Benefits & Limitations	R4 [83-84]
7.			Flow chart – Symbols, Guidelines, Benefits & Limitations	R4 [79-83]
8.			Programming languages	R4 [92-98]
9.			Algorithmic problem solving - Simple strategies for developing algorithms (iteration, recursion)	R4 [85-87]
10.			Illustrative problems: Find minimum in a list, insert a card in a list of sorted cards	R5 [1.77-1.79]
11.			Illustrative problems: Guess an integer number in a range, Towers of Hanoi.	R5[1.84-1.87]
<b>ASSIGNMENT – I - Date of Submission : 20.09.17</b>				

**CLASS TEST – I (20.09.17 – 26.09.17)****UNIT II - DATA, EXPRESSIONS, STATEMENTS****Target periods : 13 + 1**

12.			Introduction – History & Features of Python	R3 [83-87]
13.			Python interpreter and interactive mode – IDLE	R1 [22-26]
14.			Variables & Identifiers ; Reserved words Values and types: int, float, boolean, string and list	R1 [50-54] R3 [94-97, 109]
15.			Expressions & Statements Comments	T1 [11-12] T1 [15-16]
16.			Tuples – Introduction & assignment : Sequence & Multiple Assignment	R2 [65-67]
17.			Operators – Types: Arithmetic, Comparison, Assignment, Unary	R3 [99-102]
18.			Types of Operators: Bitwise, Shift, Logical, Membership & Identity	R3 [102-105]
19.			Operators Precedence & Associativity	R1 [61-63]
20.			Modules – Introduction Functions – Introduction & Need for functions	R2 [59-61] R3 [185-186]
21.			Function Definition & Function Call	R3 [187-190]
22.			Function parameters & arguments; Flow of Execution	T1 [25-27]
23.			Illustrative programs: exchange the values of two variables, circulate the values of n variables, distance between two points.	T1 [62-64]
24.				R5 [2.100]
25.			<b>Technical Quiz - I</b>	

**CENTRALIZED INTERNAL TEST – I (11.10.17 – 16.10.17)****UNIT III - CONTROL FLOW, FUNCTIONS****Target Periods: 12**

26.			Boolean Values & Operators: Relational operators, Membership operators, Boolean (logical) operators	R1 [81-85]
27.			Decision Control Statements: Conditional (if), Alternative (if-else), Chained Conditional (if-elif-else), Nested Conditional	T1 [49-51]
28.			Iterative Statements: while, for, break, continue, pass	T1 [77-79] R3 [147-171]
29.			Fruitful functions: return values Function composition	T1 [61] T1 [23]
30.			Variable Scope & Life time: Local & Global Variables	R1 [183-186]
31.			Recursive Functions	T1 [51-54]
32.			Strings- Introduction – Concatenating, Appending & Multiplying strings	T1 [85-88] R3 [242-245]
33.			Strings – Immutability – String Slices	T1 [87-89]
34.			String functions and methods	R1 [296-300]
35.			String module Lists as arrays	R3 [265-267] R3 [322-323]
36.			Illustrative programs: square root, GCD, exponentiation, sum an array of numbers.	T1 [79-80] R6 [387-389]
37.			Illustrative programs: linear search, binary search	R2 [152-157]

**ASSIGNMENT – II - Date of Submission : 10.11.17**

**CLASS TEST – II (31.10.17 – 06.11.17)**

**UNIT IV - LISTS, TUPLES, DICTIONARIES**

**Target Periods: 12**

38.		List – Introduction – Creating, Accessing & Updating values in lists	R3 [322-325]
39.		Basic List Operations : retrieve, replace, insert, remove, append	R1 [127-128]
40.		List Methods	T1 [327-332]
41.		List loop: for loop & while loop	R1 [137-141]
42.		List slices & List Parameters	T1 [110]
43.		Mutability Aliasing Cloning lists	T1 [108-109] T1 [115-116] R2 [73-75]
44.		Tuples: Tuple assignment & tuple as return value	T1 [141-142]
45.		Dictionaries: Introduction - creating, accessing, adding & modifying an entry	R3 [366-373]
46.		Dictionaries: operations and methods	R3 [374-376]
47.		Advanced list processing - list comprehension	R3 [332-334]
48.		Illustrative programs: Selection sort & Insertion sort	R5 [4.32-4.38]
49.		Illustrative programs: Merge sort, Histogram	R2 [159-162] T1 [127-128]

**ASSIGNMENT – III - Date of Submission : 25.11.17**

**CENTRALIZED INTERNAL TEST – II (16.11.17 – 23.11.17)**

**UNIT V - FILES, MODULES, PACKAGES**

**Target Periods: 10 + 2**

50.		Files – Introduction, File path & types of files	R3 [289-292]
51.		Opening & Closing files	R1 [291-293]
52.		Reading and Writing files	R1 [293-295]
53.		Format operator	T1 [166, 167]
54.		Command Line Arguments	R5 [5.38-5.40]
55.		Introduction to Errors and Exceptions – Types of Errors	R3 [480-482]
56.		Catching and Handling Exceptions	R1 [303-309]
57.		Modules: Modules & Namespaces, Importing Modules	R1 [255-262]
58.		Packages	R3 [225-226]
59.		Illustrative programs: word count, copy file.	T1 [172-173] R6 [360-366]
60.		<b><u>Content Beyond Syllabus:</u></b> Simple Graphics using Turtle	
61.		<b>Technical Seminar - I</b>	

**CLASS TEST – III (06.12.17 – 08.12.17)**

**MODEL EXAM (11.12.2017 – 18.12.2017)**

**Books: Text/Reference**

C105	3	2	1	-	2	1	-	-	-	-	-	1	2	1	-

**3. PROGRAM OUTCOMES (POs)**

**PO1: Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

**PO2: Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

**PO3: Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

**PO4: Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

**PO5: Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

**PO6: The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

**PO12: Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

<b><u>4. IMPORTANT QUESTIONS</u></b>			
<b>S. No.</b>	<b>Questions</b>	<b>COs</b>	<b>POs</b>
<b>UNIT I - ALGORITHMIC PROBLEM SOLVING</b>			
Q.1.1	Explain in detail about the various building blocks of algorithm.	C105.1	1
Q.1.2	Explain in detail about program control structures with an example.	C105.1	1
Q.1.3	(a) Define an algorithm. List the characteristics of a good algorithm. (b) Write an algorithm to determine greatest of three numbers.	C105.1	1,2
Q.1.4	(a) Draw a flowchart to check whether the given number is zero, positive or negative. (b) Draw a flowchart to solve the quadratic equation.	C105.1	1,2,3
Q.1.5	(a) Define pseudo code. Explain its guidelines and benefits. (b) Develop a pseudo code to guess an integer number in a range.	C105.1	1,2,3
Q.1.6	(a) Draw a flow chart to find factorial of a number. (b) Draw a flow chart to find sum of first 100 natural numbers.	C105.1	1,2,3
Q.1.7	(a) Develop an algorithm to determine minimum in a list. (b) Develop an algorithm to insert a card in a list of sorted cards.	C105.1	1,2,3
Q.1.8	(a) Define a flowchart. Explain in detail about the guidelines to be followed while drawing a flowchart. (b) List the merits and demerits of flowcharting.	C105.1	1
Q.1.9	Develop an algorithm to solve Towers of Hanoi problem using recursion.	C105.1	1,2,3
Q.1.10	Explain in detail about different types of programming languages.	C105.1	1,2,3
<b>UNIT II - DATA, EXPRESSIONS, STATEMENTS</b>			
Q.2.1	List the various operators available in Python. Discuss each one of them with suitable examples.	C105.2	1
Q.2.2	Discuss in detail about functions in Python.	C105.2	1

Q.2.3	Explain function with and without arguments with examples for each.	C105.2	1
Q.2.4	(a) Write a Python program to find the smallest and largest number from the given 10 numbers using functions. (b) Write a Python program to determine the distance between two points using functions.	C105.2	1,2,3,5
Q.2.5	(a) Write a Python program to exchange the values of two variables with & without using third variable. (b) Write a Python program to circulate the values of n variables.	C105.2	1,2,3,5
Q.2.6	Write a Python program to compute Simple Interest and Compound Interest for a given amount.	C105.2	1,2,3,5
Q.2.7	Explain the concept of mutability and immutability in Python.	C105.2	1
Q.2.8	Discuss briefly about the order of precedence with a suitable example.	C105.2	1
Q.2.9	Discuss the basic data types in Python.	C105.2	1
Q.2.10	Explain in detail about function parameters & arguments and flow of execution.	C105.2	1
<b>UNIT III - CONTROL FLOW, FUNCTIONS</b>			
Q.3.1	Explain in detail about various decision making structures available in Python with illustrative examples.	C105.3	1
Q.3.2	Describe the various looping statements used in Python with suitable examples.	C105.3	1
Q.3.3	Describe in detail about Boolean values & different types of Boolean Operators.	C105.3	1
Q.3.4	Define recursion? Explain a recursive function with suitable example. Write a recursive function to find the factorial of a number.	C105.3	1,2,3,5
Q.3.5	(a) Write a Python program to reverse a string. (b) Write a Python program to print the Fibonacci series of a given number.	C105.3	1,2,3,5
Q.3.6	(a) Explain in detail about fruitful functions with an example. (b) Develop a program to search an element using search techniques available in Python.	C105.3	1,2,3,5
Q.3.7	(a) Write a Python program for the following series: $1 + 2 + 3 + \dots + n$ . (b) Write a Python program to find sum of digits of an integer.	C105.3	1,2,3,5
Q.3.8	(a) Write a Python program to print first ten prime numbers. (b) Write a Python program to find the given number is Armstrong or not.	C105.3	1,2,3,5
Q.3.9	Explain in detail about various String functions and methods.	C105.3	1
Q.3.10	Explain about the concept of immutability of strings and also explain the operation of string slices.	C105.3	1
<b>UNIT IV - LISTS, TUPLES, DICTIONARIES</b>			
Q.4.1	Explain in detail about lists and basic list operations.	C105.4	1
Q.4.2	Explain about aliasing and cloning in list.	C105.4	1
Q.4.3	(a) Write a Python code to add two matrices using list. (b) Write a program to determine maximum & minimum element in a list.	C105.4	1,2,3,5

Q.4.4	A book shop details contains the Title of book and Number of copies of each title. As books are added to shop, the number of copies in each should increase and as books are sold the number of copies in each should decrease. Implement this scenario using Dictionary in Python.	C105.4	1,2,3,5
Q.4.5	Develop a program to sort a list of elements using Selection sort.	C105.4	1,2,3,5
Q.4.6	Explain about tuples and how tuple is assigned.	C105.4	1
Q.4.7	(a) Explain the concept of iterating over lists with examples. (b) List the advantages of Tuples over Lists.	C105.4	1
Q.4.8	Explain about Dictionaries in Python and discuss about its operations and methods.	C105.4	1
Q.4.9	Develop a program to sort a list of elements using Insertion sort.	C105.4	1,2,3,5
Q.4.10	(a) Explain in detail about list comprehension. (b) Develop a program to sort a list of elements using Merge sort.	C105.4	1,2,3,5
<b>UNIT V – FILES, MODULES, PACKAGES</b>			
Q.5.1	Discuss about how to open, read and write a file in python.	C105.5	1
Q.5.2	Write a program to count each letter in a file with exception handling.	C105.5	1,2,3,5
Q.5.3	Write a python code to read a text file, copy the contents to another file after removing the blank lines.	C105.5	1,2,3,5
Q.5.4	Describe the use of try-except method in Python with suitable illustration.	C105.5	1
Q.5.5	Explain in detail about catching and handling exceptions in Python.	C105.5	1
Q.5.6	Explain in detail about modules and packages in Python.	C105.5	1
Q.5.7	Develop a program to find the most frequent words in a text read from a file.	C105.5	1,2,3,5
Q.5.8	Develop a program to count the number of lines, words, characters in a text file.	C105.5	1,2,3,5
Q.5.9	Develop a program that generates a Quiz and uses two files – Questions.txt and Answers.txt. The program opens Questions.txt and reads a question and displays the question with options on the screen. The program then opens the Answers.txt file and displays the correct answers.	C105.5	1,2,3,4,5
Q.5.10	Develop a program to calculate the area of circle with exception handling.	C105.5	1,2,3,5
<b><u>5. ASSIGNMENT QUESTIONS</u></b>			
<b>UNIT I - ALGORITHMIC PROBLEM SOLVING</b>			
A.1.1	Develop an algorithm to access an ATM.	C105.1	1,2,3
A.1.2	Write algorithmic steps to create an Email account.	C105.1	1,2,3
A.1.3	Develop Pseudo code and flowchart to determine the sum of all odd integers between 1 and n.	C105.1	1,2,3
<b>UNIT III - CONTROL FLOW, FUNCTIONS</b>			
A.3.1	Develop a Python program to print Pascal triangle using “for loop”.	C105.3	1,2,3,5

A.3.2	Develop a Python program to solve “Towers of Hanoi” problem using Recursion.	C105.3	1,2,3,5
A.3.3	Develop a Python program to convert a given Binary number into its equivalent Decimal number.	C105.3	1,2,3,5
<b>UNIT IV - LISTS, TUPLES, DICTIONARIES</b>			
A.4.1	Develop a Python program using Dictionary to generate a small dictionary of synonyms. The program should then accept a word and generate synonyms.	C105.4	1,2,3,5
A.4.2	Develop a Python program using Tuples to input student details. The program should accept a given student’s roll number and display his specific records.	C105.4	1,2,3,5
A.4.3	Develop a Python program to reverse the elements of a given list.	C105.4	1,2,3,5

### SEMINAR TOPICS

1. Applications of Python for Web & Internet development
2. Language Translators
3. Internet
4. Operating Systems
5. Goodies
6. Booting
7. Pygame
8. Moodles
9. Modules
10. Packages
11. Exception Handling
12. Basic File operations

## A BRIEF HISTORY OF THE COLLEGE

K.L.N. College of Engineering is the first self-financing Co-educational Engineering College in Madurai, started in 1994 by Munificence of Philanthropist and well wishers in Sourashtra Community which is a linguistic minority in Tamilnadu. This college is sponsored by the committee of eminent industrialists and academicians led by enthusiastic, educationalist and industrialist (Late) Thiru K.L.N. Krishnan. This college has the approval of All India Council for Technical Education, New Delhi and is affiliated to Anna University, Chennai.

Thiru. K.L.N. Krishnan, Founder President of this Engineering College has rendered Yeoman service to Sourashtra Arts & Science College and Sourashtra Girls Higher Secondary School, Madurai for the past several years. He also promoted a Polytechnic under the name of K.L. Nagaswamy Memorial Polytechnic College in Viraganur, Madurai in 1983. This Engineering College, functioned in the premises of the above polytechnic during the academic years 1994-95 & 1995-96 was shifted to its own premises in the year 1996.

(Late) Thiru K.L.N. Krishnan is the Founder President, and the college is now under the management of Dr. K.N.K. Ganesh as Secretary & Correspondent and other executive committee members.

### Campus :

This college is situated on the South Eastern outskirts of Madurai, 11th Km on Madurai – Nedungulam Road. It is built in an area of 53.8 acres. The Campus has multistoreyed buildings consisting of well provided class rooms, drawing halls, seminar halls, conference hall, library, Air-Conditioned Computer centres, staff rooms and student rest rooms. The infrastructure also consists of five double storeyed laboratory buildings and three single storeyed workshops and Machine shop, and an automobile workshop.

The Administrative block (2 storeyed) of 1,185 sq. metre with office in the ground floor, I.T. laboratory in the first floor & class rooms in the second floor has been constructed on the eastern side.

A two storeyed block of 1,185 sq. metre consisting class room has been constructed on the southern side of the administrative block.

A two storeyed block of 1,185 sq. metre with EIE laboratory in the ground floor, DSP laboratory in the first floor & class rooms in the second floor has been constructed on the western side of the administrative block.

A two storeyed block of 2,122 sq. metre with spacious library, video library & Electronic resource section in the ground floor, class rooms in the first floor & CSE laboratory in the second floor has been constructed near the administrative block.

A single storeyed block of 1,193 sq. metre with S.M. laboratory in the ground floor CAD, CAM laboratories in the first floor & class rooms in the second floor has been constructed on the north western side of the administrative block.

Three Mechanical sheds (occupied by three Mech. Engg. Laboratory) of 2460 sq. metre have been constructed on the northern side of the mechanical block. An automobile work shop of 2304 sq. metre has been constructed on the north western side of the administrative block.

An Indoor stadium cum Auditorium of 2,221 sq. metre has been constructed on the northern side of the administrative block.

A separate double storeyed post-Graduate block of 4,020 square metre for M.B.A. and M.C.A. departments has been constructed on the South Western side of the administrative Block.

A single storeyed block of two canteens with 2,485 square metre in the ground floor and ladies rest room in the first floor has been constructed on the south western side of the Administrative Block.

A single storeyed block of 1,289 square metre for Electrical & Electronics Engg., Laboratories & class rooms in the ground floor and Electronics & Communication Laboratory and Class rooms in the first floor has been constructed on the western side of the Administrative Block.

A two-storeyed block with an area of 2,956 sq. metre has been constructed as an extension to Block III Opposite the U.G. library Block. This block comprised Physics lab, Chemistry lab and EIE Lab. D.S.P. Lab & Class rooms.

A two-storeyed block with an area of 2076 square metre for the use of EEE Dept. in the ground floor & ECE Dept. in the first & 2nd floors is now under construction as an extension to the existing EEE & ECE block on the western side of the administrative block.

A two storeyed block with an area of 2,977 sq. metre for the use of Mechanical & Automobile depts. is now under construction, as an extension to the existing Mechanical block on the North-Western side of the administrative block.

A separate building with ground floor of area of 170 sq. metre for the installation of Generator on the South-eastern side (Opposite to the Vinayagar temple) of the administrative block is under construction & (nearing completion)

In order to facilitate the easy accessibility for the students, in all, 950 numbers of computers have been installed so far. This sounds the management's conviction in providing essential infrastructure for the learning purpose in our college.

An overhead Tank of 20,000 Litre Capacity at a height of 40 feet has been constructed at a cost of Rs.4 lakhs, donated by Rotary international, Rotary District-1240, Rotary club of LEIGH-ON-SEA. Treated drinking water plant at a cost of Rs.2 lakhs has been installed near the overhead tank.

Well-furnished Men's Hostel, Mess block and canteen block are also inside the campus. The college is a quiet retreat, ideal for concentrated study, away from distractions and disturbances of a large city.

A single storeyed block of 1,330 square metre with a spacious dining hall in the ground floor and 13 rooms in the first floor for men students has been constructed on the northern side of the administrative block and is already in use. A two storeyed hostel block of 2,034 square metre adjacent to the existing hostel for men students has been constructed.

Total expenditure incurred so far towards the cost of equipments & buildings & other assets is about Rs.22.50 crores.

A VINAYAGAR Temple on the eastern side of the administrative Block has been constructed. Eight class rooms for I year B.E. / B.Tech 2 class room for M.E. (P.S.) students, and two staff rooms have been constructed in the ECE/EEE block.

A Ladies Hostel of 1460 sq.m. which can accommodate about 150 students is within the campus.

### HISTORY OF THE DEPARTMENT

<b>B.E. - Electrical and Electronics Engineering</b>		<b>M.E. - Power Systems Engineering</b>		<b>Ph.D.</b>	
Year of start & History of Intake	1994, with an intake of 40	Year of start & History of Intake	2004, with an intake of 18	Year of Recognition as Research Centre	2012
	1996, with an intake of 60		2012, with an intake of 24	First Renewal	2015, upto December 2018
	2002, with an intake of 90				
	2011, with an intake of 120				
Both UG & PG programs are permanently affiliated to Anna University, Chennai.					
<b>Accreditation status</b>					
First Accreditation	Second Accreditation	Third Accreditation	Fourth Accreditation		
3 YEARS W.E.F. 19-3-2004	3 YEARS W.E.F. 19-7-2008	2 YEARS W.E.F. 05-08-2013	Academic Year 2016-17,2017-18 and 2018-19, i.e., upto 30-06-2019		

### FACULTY PROFILE as on September 2017

Ph.D's	Doing Ph.D	M.E.
11	7	13
Professors	Associate Professor	Assistant Professor
05	06	20

## **SALIENT FEATURES OF THE DEPARTMENT**

### **1.GENERAL**

- Started offering B.E. in Electrical and Electronics Engineering in the year 1994 with an intake of 40 (No.-732-50-8/RC/94, dated 11th August 1994, AICTE), an intake of 60 in 1996, an intake of 90 in 2002 (F.No :730-52-227(E)/ET/97 dated 19.06.2002), with the latest intake of 120 in 2011 (F.No.Southern/1-400215781/2011/EOA, dated 01.09.2011, AICTE).
- Started offering M.E. in Power Systems Engineering in the year 2005 with an intake of 20 and increased intake to 24 in 2012 (F.No.Southern/1-687512981/2012/EOA, dated 10.05.2012, AICTE).
- Accredited in March 2004 (First time – F.No.NBA/ACCR-242/2003, dated 24/03/04) and Re-accredited (Second time – F.No.NBA/ACCR-242/2003, dated July 19, 2008), Re-accredited (Third time - For 2 years w.e.f. 28-08-2012), Re-accredited (Fourth time – For 3 years w.e.f. July 2016, upto 30.06.2019, F.No. 33-01/20100-NBA, dated 04.02.2017) by National Board Accreditation, New Delhi.
- Recognized Research Centre No.4490408, Approved by Anna University, Chennai with effect from December 2012, offering guidance for M.S & Ph.D.(Full time/Part time) (Renewed upto December 2018, Lr.No. 4904/IR/EEE/AR1 dated 18.02.2016).
- Both UG and PG programs are permanently affiliated to Anna University, Chennai with effect from December 2012.
- MODROB fund of Rs.5 lakhs was allotted for the year 2011-2012 for the Power Electronics laboratory (No.8024/RIFD/MOD-131(pvt)/Policy-III/2011-2012, dated 06.03.2012).
- Department of Science and Technology (DST), sanctioned financial assistance of ₹19,75,800/- for the project entitled 'Smart Meter for measuring Power Quality Disturbances using GSM Technology', Dr.K.Gnanambal, Professor/EEE is the Principal Investigator (Ref. No. IDP/IND/4/2015 dated 03.08.2016).

### **2.INFRASTRUCTURE**

- Electrical machines laboratory, Control, Measurement and Instrumentation laboratory, Power Electronics laboratory, Electric circuits and Electronic devices laboratory, Research and Development laboratory and Power System Simulation Laboratory are equipped with machineries, components, signal generating, power supply measuring, recording instruments and computer systems costing Rs.2 crores. The total built up area of laboratories is 1208.21 sq.m.
- Latest softwares on Power system analysis, Power system stability, Power world simulator and Power electronics are available to study, solve, design and simulate research on Power system and Power Electronics problems to experience the real time results.
- All the class rooms are equipped with computer systems, LCD and OHP to promote the Teaching-Learning process more effectively.
- Separate library facility for EEE students with more than two thousand books on core subjects and hard copies of IEEE Journals and magazines from 1999 are available for reference. Staff and students can access the softcopy of Journals, proceedings published by IEEE, Elsevier, ASME, Springer, Mc Graw Hill.
- All laboratories are provided with sufficient computing facilities, printing facility with internet connection to simulate laboratory experiments.

### 3.STAFF

- Teams of well qualified, and experienced 31 faculties with cadre ratio as per AICTE, are guiding the students to attain the best educational objectives.
- Excellent research environment promotes the staff and students to participate, present and publish their research works in the National/International Journals and National/International conferences.
- Faculty and experienced faculty available for guiding Ph.D.scholars.
- Staff development Programme / Faculty development programme / Workshop/ Seminar are organized regularly to share the knowledge of our experienced faculty with parent institution and other colleges staff and students and Industrial persons.

### 4.RESEARCH AND DEVELOPMENT

- The Research and Development section is doing research on Industrial Power Harmonics and mitigation and interact with industries in measuring, recording, analyzing and designing of filters for reducing harmonics with the help of Power Quality analyzer, as per IEEE standard.
- Consultancy work on 'Industrial Harmonic Study' and 'Energy Audit' is being carried out regularly by the experienced professors.

### 5.STUDENTS

- Students secured 99 University Ranks in B.E.-EEE (1998 to 2016) and 17 University Ranks in M.E.-Power Systems Engineering (2007 to 2016) with **Gold medal** in 2000 (UG - EEE) and in 2011 (PG – Power Systems Engineering). Sweety Jain of 2005-2009 batch student secured 2nd rank in Anna University Examination in 2009 among 8500 students who completed degree and out of 240 Engineering colleges all over Tamil Nadu.
- IEEE student's chapter which was started in the year 1999, continuously conducting number of student technical programme. Guest lecturers from industries have been arranged periodically to promote Industry-Institute Interaction and to bridge the gap between curriculum and latest trend in industry. The college received appreciation award for IEEE Student Chapter Activities from IEEE, Madras Section for the year 2015 and 2016. The EEE department recognized as IEI Best Division Award for the Academic year 2016-2017.
- To promote innovation, latest trends in industry and employability skills, student's professional activities are conducted every year in the name of symposium and conferences.
- Workshop/Seminar is regularly conducted for students to meet out the curriculum objectives.
- Inplant trainings are arranged for second and third year students to have hands on training with industry. Industrial visits are arranged every semester to know about the various process taking places in industry.
- Placement oriented training programme were conducted every semester right from the first year to develop soft skills, attitude, aptitude, self confidence, communication skills, interview skills etc, so as to face the campus placement programme organized by the college. Professional Trainers from software companies, Bangalore, Chennai are being invited for such training programme.

**K.L.N. COLLEGE OF ENGINEERING, POTTAPALAYAM – 630 612**  
**DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING**

## PLACEMENT ACTIVITY – REMINDER

1. In the month of October every first year students must fill forms online in TATA CONSULTANCY SERVICES (TCS) campus recruitment using [nextsteptcs.com](http://nextsteptcs.com) website and must submit the following documents in the department.
  - a. SSLC and HSC mark sheet photo copy at least 5.
  - b. Latest passport size Photo at least 5.
  - c. Current address proof with parent contact cell numbers.
  - d. Create your own two E-mail id using Gmail.
  - e. Resume with Scanned copy of passport size Photo.
  - f. CT number registered in the TCS website.
2. Every semester end update CGPA in your resume and TCS profile.
3. An Engineering student from Electrical and Electronics Engineering should complete the following courses in order to enhance their software skills. This will be most helpful during their successful completion in Curriculum during 4<sup>th</sup> Semester and in the software company campus recruitment.
  - a. Should complete **C Programming** before joining **2<sup>nd</sup> Semester**.
  - b. Should complete **C++ Programming** before joining **3<sup>rd</sup> Semester**.
  - c. Should complete **JAVA Programming** before joining **4<sup>th</sup> Semester**. (for the successful completion of object oriented Programming theory paper and laboratory during 4<sup>th</sup> Semester)
4. An Engineering student from Electrical and Electronics Engineering should complete the **Micro Processor, Micro Controller and Embedded Systems** courses before joining **5<sup>th</sup> Semester** in order to enhance their Hardware skills. This will be most helpful during their successful completion in Curriculum from 5<sup>th</sup> to 6<sup>th</sup> Semester and in the Core company campus recruitment. (for the successful completion of Micro Processor and Micro Controller theory as well as laboratory during 5<sup>th</sup> Semester and Embedded Systems during 6<sup>th</sup> Semester)
5. From 6<sup>th</sup> Semester Summer vacation onwards all should prepare for GATE Examination because all Engineering students from Electrical and Electronics Engineering should appear GATE Examination in order to settle in their life by pursuing higher education in the reputed colleges like IIT, NIT and Anna University or else to join as a Graduate Engineer trainee in a public sector companies like IOC, BHEL, PGCIL etc.,
6. Before joining 7<sup>th</sup> Semester all should get any international certification programme course like OCJP, CCNA, etc., and upload the certification details in TCS campus website. This will be most helpful during the TCS campus and other MNC company recruitment.

## GENERAL REMINDERS

### I. General

1. Keep at least 5 photocopies of birth certificate, ration card, Voters ID card, College ID card, Aadhar card, 10th ,+2 mark sheets, 10th /+2 Transfer Certificates,[\* all proofs to be kept in your bag, in your house and in your mail, all kept in a water proof file-remember Chennai flood]. This will be required at anytime, anywhere.
2. Apply for Savings Bank account in any of the nationalized banks in first year. Apply for LIC schemes, saving schemes right from the first year. [\*Refer]
3. Get Driving license during third year of your Degree course [\*Refer]
4. Get Passport before the completion of 6th semester. [\*Refer]
5. Always keep ID card issued by competent authority while moving from one city to another/ one state to another. It is better to wear ID card always.(except during bathing).
6. Never share your username and password of mail accounts to anyone even in your home/ to teachers/ friends. Never reply to un trusted mail/fake messages.
7. Share only legal, ethical, non-political, educational value based information/ photos/videos with your friends or any others through social media. Posting of illegal/political/unethical/ information/comments will spoil your career. Remember that all such communications in social media/emails are continuously monitored and recorded by intelligent agencies in the country and abroad, due to security threats.
8. Don't involve teasing of students of your class, juniors or seniors in the classrooms, laboratories or in hostels. Don't loan the cell phone to anyone. Also don't keep your cell phone easily accessible by anyone.
9. Don't send obscene messages or pictures through cell phones/ internet to anyone. Defaulters will be easily tracked by Cyber Crime Agencies. Don't purchase/loan someone's laptop/mobile phone, due to theft complaints.
10. Avoid two wheeler riding for long travelling, and night travelling. Wear helmet. Follow traffic rules. Lot of accidental deaths reported due to negligence of traffic rules. About 1.5lakhs of people lost their life in accidents in our country every year.
11. For any transaction of money, use cheques or bank accounts(for more than Rs. 10,000/- ) because finding fake notes is difficult.
12. Always keep 10 passport and stamp size photographs, 10 no.s of revenue stamps, all ID proofs whenever going for banks/pass port office.
13. Keep at least email ids and good friendship of 25 students of your branch who have been placed in different companies. Collect background information on core/IT companies(minimum 25)
14. Develop good reading habit/read News papers daily/watch news channel daily/Watch films nominated for Oscar award.Watch channels like Discovery/Nat Geo/History/ any other news channels.(not more than an hour)
15. Speak in English only. Develop good writing skills by reading books.
16. Have a Desk top/Laptop, Printer before entering 5th semester.
17. Have internet facility in home for educational purpose. Keep all NPTEL material.
18. Keep all kind of stationary in your table for use at any time [pencil, sharpener, eraser, ball point pen of different colours, sketches, bell clip, stapler, single punch, tag, gum, knife,scissors,A4 paper, cello tap, emergency lamp, scale, protractor, compass, pen drive, CD, whitener, calculator, diary, stapler pin box]

19. Never transfer/ deposit money to any unknown mail. Beware of fraud/cheating by any one.

## **II. Education:**

20. Download Anna University examination results immediately after the publication of result from AU website. Mark sheet attestation will not be given without the above copy

21. Always keep 5 copies of AU mark sheets , of each semester. Post it on your mail.

22. Discrepancy in mark sheets such as Name, Date of Birth, CGPA awarded, register number should be corrected immediately.

23. Always keep Rs 5,000/- in a semester for the payment of Book fee/AU exam fee/Training fee/purchase of competitive exam books/Educational tour/seminar/additional course/ certification course etc. Educate your parents for the above. This may be required in a particular month or in several months spread in a semester.

24. Enroll in IEEE membership during first/second year. Attend at least one programme at Chennai.

25. Collect 5 sets of AU question papers, subject wise, in a semester(within 10 days)

26. Prepare good quality Resume. Consult TPO, placed final year students. Resume preparation is an art that ensures your quality and getting jobs in reputed concern. Update your resume, monthly ( by attending value added courses, online courses, co-curricular and extracurricular activities, publishing articles in conferences, symposium, technical events, journals, News papers, inplant training, internship, new languages learnt, project developed, industrial visits, social services participated etc.)

27. Attend any courses after consulting with HOD/senior staff to avoid courses not suited to your branch.

28. Purchase text/reference books every semester.

29. Purchase competitive exam books , like Objective type QB,GATE/TANCET/IES/IAS and prepare for the exams from second year onwards.

30. Collect aptitude/reasoning/analytical/numerical/verbal/test questions from the placed students or download from the website. For successful placement, preparation from the first year in the above topics is required.

31. Collect information like Product, clients, branches, head office, annual turnover, GM,CEO, etc of 25 core companies, and 25 software companies.

32. Attend atleast one seminar/workshop/ paper presentation contest per semester, applicable to your branch of study.

33. Plan your study for current subject/assignment work/observation work/record work/aptitude training for technical /non-technical daily/weekly/monthly.

34. Decide & justify clearly, your objective before 6th semester and plan accordingly. Options are placement(ON/OFF) in core/IT companies, higher studies/ civil services , parents business , start your own business. Confused mind never take a decision.

35. Attend inplant training(Min:one week,Max:One month) during semester holidays. Avoid industrial visit (Energy waste) and educational tour (Money waste).

36. Do mini project in second, third year of your study .Update these in final year. Project should be based on the need of the society/industry.

### III. Health

37. Health is wealth. Read Dalailama statement on life of a man. We work hard , earn and save money sacrificing our health. Later we spent lot of money for medical treatment due to poor healthcare.
38. Have regular exercise either in the forenoon/evening. (an hour walk is must everyday).
39. Your food habits decides what you are and how long you will live with peace. Avoid junk foods/road side eatery. Use hot water for drinking.
40. Consult doctors in case of health problems. Periodical medical checkup, once in 6 months, is necessary for health and dental care. This may require Rs.2,000/- per year. Otherwise you need to pay a lot. It is advisable to stay in a house, within 500 metre (walkable distance) from a multispecialty hospital, otherwise 250 meters from any hospital. This is required to tackle emergency situations and also to avoid paying more for transport.
41. Avoid roaming/walking during summer/rainy season.
42. Attend yoga classes/ do meditation.
43. Apply group insurance medical policy at the age of 20.
44. Follow ethics and be Nationalistic.

### Developing Leadership Skills

No one is a born leader; everyone can develop leadership skills and everyone can benefit from using them. First, take time to honestly analyze yourself. Learn to understand yourself. It's the first step to understanding others. Consider these important questions:

1. What kind of leader am I? One who helps to solve problems? A leader who helps people get along? How do others see me as a leader?
2. What are my goals, purposes, and expectations in working with this particular group?  
Identify areas for improvement.

#### **Ask yourself these questions:**

1. Do I try to be aware of how others think and feel?
2. Do I try to help others perform to the best of their abilities?
3. Am I willing to accept responsibility?
4. Am I willing to try new ideas and new ways of doing things?
5. Am I able to communicate with others effectively?
6. Am I a good problem solver?
7. Do I accept and appreciate other perspectives and opinions?
8. Am I aware of current issues and concerns on campus or in my community?

Then after analyzing your strengths and weaknesses -- take action

Devise a strategy for upgrading your skills. Here are a few strategies to consider:

#### **1) Communicate effectively:**

Effective communication is dialogue. Barriers are created by speaking down to people, asking closed questions that elicit yes or no answers, using excessive authority, and promoting a culture that depends on unanimity. If your focus is winning the argument or if you react defensively to criticism, you'll create fear of openness and hinder the organization's growth.

Try these steps to effective communication:

- Listen actively - ask open questions. Be genuinely interested in what other's say.

- Thank people for their openness -- stress how much you value it -- even if you don't like specifically what is being said.
- Point to areas of agreement before jumping on areas of disagreement - this reduces defensiveness; members won't fear being "attacked."
- Set aside your authority to create an atmosphere of partnership to reduce fear in group members.
- Promote a culture of constructive dissent - though not to the point of paralysis.
- Portray disagreement as simply a difference of opinion. Get rid of the "I'm right, you're wrong" attitude.

## **2) Encourage enthusiasm and a sense of belonging. Show:**

- Friendliness: others will be more willing to share ideas if you're interested in them as people too.
- Understanding: everyone makes mistakes. Try to be constructive, tolerant and tactful when offering criticism.
- Fairness: equal treatment and equal opportunity lead to an equally good effort from all group members.
- Integrity: members will take tasks more seriously if you show that you're more interested in group goals than your own personal gain.

## **3) Keep everyone working toward agreed upon goals:**

- Remind everyone of the group's purposes from time to time. It's easy to become too narrowly focused and lose sight of the larger goals.
- Provide encouragement and motivation, by showing your appreciation for good ideas and extra effort.
- Harmonize differences and disagreements between group members by stressing compromise and cooperation.
- Involve everyone in discussions and decisions, even if asking for opinions and ideas means a longer discussion.

## **4) Get to know the people around you Everyone has different abilities, wants, needs, and purpose in life.**

To get along with others and get results, you need to get to know them.

- Interact with group members as often as possible. The only way to get to know someone is through direct personal contact.
- Become familiar with every member of your group. Take note of each person's unique qualities and characteristics.

## **5) Treat others as individuals**

Put your knowledge and understanding of each group member to work!

- Be aware of expectations. Everyone expects something different: recognition, a chance to learn, a chance to work with other people, etc.
- Be creative. A repetitious routine can cause boredom. A successful leader thinks of new and better approaches to old ways of doing things.
- Provide rewards. Recognition by the group is a source of personal satisfaction and positive reinforcement for a job well done.
- Delegate responsibilities. If everyone shares the work, everyone can share pride in the group's accomplishments. Let each member know what's expected of him/her, available resources, deadlines, etc.

## **6) Accept responsibility for getting things done**

- Take the initiative. Why stand around and wait for someone else to get things started?

Set an example.

- Offer help and information. Your unique knowledge and skills may be just what's needed.

- Seek help and information. Ask for advice if you need it. This will encourage group involvement and help accomplish group goals.
- Make things happen. By being decisive, energetic, and enthusiastic, you can and will help get things done!
- Know when and how to say “no.” If your time and resources are already committed, turn down extra tasks, but do it nicely.

### **7) Problem solve in a step - by-step way**

Whether you are faced with a decision to make or a conflict to resolve, following a logical approach will help.

1. State the problem as simply and clearly as possible.
2. Gather all relevant information and available resources.
3. Brainstorm as many ideas or solutions as you can think of (with others if possible).
4. Evaluate each idea or solution and choose the best one.
5. Design a plan for using your idea or solution. Include a timetable, assigned roles, and resources to be used.
6. Follow up on your plan by asking if your idea worked and why or why not.

### **Tips for Effective Communication**

**Have courage to say what you think.** Be confident in knowing that you can make worthwhile contributions to conversation. Take time each day to be aware of your opinions and feelings so you can adequately convey them to others. Individuals who are hesitant to speak because they do not feel their input would be worthwhile need not fear. What is important or worthwhile to one person may not be to another and may be more so to someone else.

**Practice.** Developing advanced communication skills begins with simple interactions. Communication skills can be practiced every day in settings that range from the social to the professional. New skills take time to refine, but each time you use your communication skills, you open yourself to opportunities and future partnerships.

**Make eye contact.** Whether you are speaking or listening, looking into the eyes of the person with whom you are conversing can make the interaction more successful. Eye contact conveys interest and encourages your partner to be interested in you in return.

**Use gestures.** These include gestures with your hands and face. Make your whole body talk. Use smaller gestures for individuals and small groups. The gestures should get larger as the group that one is addressing increases in size.

**Manifest constructive attitudes and beliefs.** The attitudes you bring to communication will have a huge impact on the way you compose yourself and interact with others. Choose to be honest, patient, optimistic, sincere, respectful, and accepting of others. Be sensitive to other people's feelings, and believe in others' competence.

**Develop effective listening skills:** Not only should one be able to speak effectively, one must listen to the other person's words and engage in communication on what the other person is speaking about. Avoid the impulse to listen only for the end of their sentence so that you can blurt out the ideas or memories your mind while the other person is speaking.

**Enunciate your words.** Speak clearly and don't mumble. If people are always asking you to repeat yourself, try to do a better job of articulating yourself in a better manner.

**Pronounce your words correctly.** People will judge your competency through your vocabulary. If you aren't sure of how to say a word, don't use it.

**Use the right words.** If you're not sure of the meaning of a word, don't use it. Grab a dictionary and start a daily habit of learning one new word per day. Use it sometime in your conversations during the day.

**Slow your speech down.** People will perceive you as nervous and unsure of yourself if you talk fast. However, be careful not to slow down to the point where people begin to finish your sentences just to help you finish.

It is spread across 130 countries around the globe and provides the IT solutions to the financial companies.	Mumbai, India	US\$610 million	9,682	<a href="http://www.oracle.com">www.oracle.com</a>

## Lists of TOP 10 core companies to offer Electrical jobs

### **1 | Bharat Heavy Electricals Ltd.**

**Corporate office** – New Delhi, India | **Establishment** – 1964 |

**Business** – Electrical equipments | **Website** – [www.bhel.com](http://www.bhel.com) |

Bharat Heavy Electricals Ltd established in the year 1964 is a leading power plant equipment manufacturer and has expertise in engineering, manufacture, construction, testing, designing and servicing of various products of the core sectors such as defense, power, industries etc. BHEL is among the top electrical companies in India and which has total 16 manufacturing divisions and four regional offices. It is currently operating more than 150 project sites across India and abroad.

---

### **2 | Alstom**

**Corporate office** – Levallois-Perret, France | **Establishment** – 1928 |

**Business** – Power generation and transmission | **Website** – [www.alstom.com](http://www.alstom.com) |

Alstom a multinational corporation is one of the best electrical companies in India and world, operating in hydroelectric power transportation and generation and it is active in many core industry sector. Company has a workforce of 9000+ employees in India and over 85000+ worldwide.

---

### **3 | ABB**

**Corporate office** – Zürich, Switzerland | **Establishment** – 1988 |

**Business** – Electrical equipments | **Website** – [www.abb.com](http://www.abb.com) |

ABB holds interests in robotics and mainly in the automation and power areas. ABB is active in the field of electricity grids manufacturing and other technologies in the field of automation and power. ABB is one of the few giant electrical player at global level and among the largest engineering company in the world.

---

### **4 | Siemens**

**Corporate office** – Erlangen, Germany | **Establishment** – 1847 |

**Business** – Renewable energy, Power generation & transmission | **Website** – [www.energy.siemens.com](http://www.energy.siemens.com) |

Siemens a German conglomerate is rated one the finest electrical company in India. Company's product line includes generators, steam turbines, compressors, high-voltage switching products and many more. Siemens employees more than 86000 people worldwide and it is a leading supplier of energy related products worldwide.

---

### **5 | Crompton Greaves**

**Corporate office** – Mumbai, Maharashtra | **Establishment** – 1878 |

**Business** – Electrical | **Website** – [www.cgglobal.com](http://www.cgglobal.com) |

Crompton Greaves is a part of Avantha Group which is headquartered in Mumbai. CGL deals in manufacturing, marketing and designing of power transmission and generation related products. CGL has manufacturing units in Canada, France, Hungary, UK, US, Indonesia, Ireland, India and Belgium.

---

### **6 | Bajaj Electricals Ltd.**

**Corporate office** – Mumbai, Maharashtra | **Establishment** – 1938 |

**Business** – Electrical Appliances | **Website** – [www.bajajelectricals.com](http://www.bajajelectricals.com) |

Bajaj Electricals is a leader in the field of electrical equipment and headquartered in Mumbai. It is one of the top 5 electrical companies in India having 19 branch offices across India. Bajaj Electricals provides

complete range of consumer durable such as fan, electrical appliances, lighting which includes tubes, lamps etc.

---

#### **7 | Eason Reyrolle**

**Corporate office** – Bangalore, Karnataka | **Establishment** – 1986 |

**Business** – Electric Equipments & Industrial Consumables | **Website** – [www.easunreyrolle.com](http://www.easunreyrolle.com) |

Established in 1980 Eason Reyrolle is a Power Management Products, Transmission, Distribution & Industrial Application, Systems, Solutions and Services provider having significant presence in global market as reputed electrical products manufacturer.

---

#### **8 | Schneider Electrical**

**Corporate office** – Rueil Malmaison, France | **Establishment** – 1981 |

**Business** – Electric Equipment | **Website** – [www.schneider-electric.co.in](http://www.schneider-electric.co.in) |

Schneider Electric a French company established in the year 2000 is among the top electrical companies in India which is involved in energy management. Company has a workforce of more than 17000 employees and has 31 global manufacturing Plants.

---

#### **9 | Wipro Lighting**

**Corporate office** – Pune, Maharashtra | **Establishment** – |

**Business** – Lamps, Luminaires and Accessories | **Website** – [www.wiprolighting.com](http://www.wiprolighting.com) |

Wipro lightings a part of Wipro group and a leading electrical company in India producing Lamps, luminaries and accessories. Company's product portfolio comprises of high end lighting control and architectural dimming system, high intensity discharge lamp Luminaries, brightness management lighting products etc.

---

#### **10 | Kelvin Electrical**

**Corporate office** – Al-Ain, U.A.E | **Establishment** – 2005 |

**Business** – | **Website** – [www.kelvin-electrical.com](http://www.kelvin-electrical.com) |

Kelvin Electrical LLC founded in 2005 is based in United Arab Emirates (UAE). Kelvin Electrical deals in Cable Management Systems, Interior, Architectural, Exterior and Special lighting, Cable Support Systems, Raised Floor, Wiring Accessories etc.

## K.L.N. COLLEGE OF ENGINEERING

### DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING

#### Lists of core companies to offer Electrical jobs in India

##### Types of Electrical Core Companies

1. [Electrical motors and Generators](#)
2. [Consultancy \(Electrical Engineering\)](#)
3. [Electrical appliances](#)
4. [Electrical components companies](#)
5. [Lighting & luminaries](#)
6. [Power Generation](#)
7. [Electric wires & Cables](#)
8. [Electrical exporters](#)
9. [Measurements & Instrumentation](#)
10. [Power Distribution](#)
11. [Transformers](#)
12. [Green Energy Companies in India](#)
13. [Internationally renowned MNC'S](#)
14. [Top 20 core companies in India to offer electrical jobs](#)
15. [Exclusive Government jobs for Electrical Engineers](#)

##### Electrical motors and Generators

1. Ajay Engineers <http://www.ajayengineers.com>
2. All India Electric Motor Manufacturers' Association <http://www.aiemma.com/>
3. Aqua Brand Submersible Sewage Pump <http://www.aquapumps.com>
4. Compact <http://www.compactlighting.net>
5. Crown Electric Company <http://www.crown-gear.com>
6. Lawkim <http://lawkimindia.com/>
7. MMC Electric Company <http://www.dynafluxindia.com>
8. MS Enterprises and Trimega Power Corporation <http://www.msein.com>
9. National Electrical Industries - Ahmedabad. <http://www.elmomachines.com/>
10. Numeric Power Systems <http://www.numericups.com>
11. Pranshu Electricals <http://www.pranshuelec.com/>
12. Reva Industries <http://www.reva.com/>
13. Rotomag Motors & Controls Pvt. Ltd. <http://www.rotomag.com>
14. Rudrashakti Electronics <http://www.rudrashakti.com>
15. Sanjay Diesels - Diesel Generating Sets. <http://www.dgsets.com/>
16. Venus Industrial Corporation <http://www.venusind.com/>
17. A-One Industries. <http://www.aoneindustries.com/contactus.html>

##### Consultancy (Electrical Engineering)

1. APJ Projects <http://www.apjprojects.com>
2. Consolidated Consultants and Engineers Pvt. Ltd <http://www.consolidatedconsultants.com>
3. DSON Enterprises <http://www.dsonenterprises.com>
4. Eltech Engineers <http://www.eltechindia.com/>
5. John Mech-El Technologies (P) Ltd <http://www.johnmech-el.com/>
6. Mandvi Electric Works <http://www.bicserve.com/>

7. Miraj Instrumentation Services <http://www.mirajinstrumentation.com>
8. PG Associates <http://www.engineeringconsultant.in>
9. Power Gem Engineers - Consultants in Power Generation. <http://www.powergem.com/>
10. Secon Engineers <http://www.seconindia.com>

## Green Energy Companies in India

1. **Suzlon Energy:** Suzlon is of course the first company that comes to mind. They are one of the leading wind energy companies in India are one of the better known alternative energy companies in India. Here are some details from their website.

Conceived in 1995 with just 20 people, Suzlon is now a leading wind power company with:

- Over 16,000 people in 25 countries
  - Operations across the Americas, Asia, Australia and Europe
  - Fully integrated supply chain with manufacturing facilities in three continents
  - Sophisticated R&D capabilities in Belgium, Denmark, Germany, India and The Netherlands
  - Market leader in Asia, Suzlon Market Share (Combined with REpower) rose to 9.8% thereby making Suzlon 3rd \* largest wind turbine manufacturing company in the world.
2. **Orient Green Power Limited:** Primarily engaged in the Wind and Biomass energy space. Currently wind constitutes the majority of their energy portfolio, so this is another one of India's wind energy companies. As of March 31, 2010, their total portfolio of operating projects included 193.1 MW of aggregate installed capacity, which comprised 152.6 MW of wind energy projects and 40.5 MW of biomass projects. Their portfolio of committed and development projects included approximately 815.5 MW of prospective capacity, which comprised an estimated 622.0 MW of wind energy projects, 178.5 MW of biomass projects and a 15.0 MW small hydroelectric project
  3. **Indowind Energy Limited:** Indowind Energy Limited is also a wind energy company that develops wind farms for sale, manages the wind assets, and generates green power for sale to utilities and corporates. Turnkey implementation of Wind Power Projects, from concept to commissioning. Wind Asset Management Solution for installed assets, including operations, billing, collection of revenue to project customers. Supply of Green Power to Customers. CERs (Carbon Credit) Sales and Trading.
  4. **Suryachakra Power Corporation Limited:** SPCL is the flagship company of Suryachakra Group with interests in Power generation – renewable energy (biomass, Solar, hydro, Wind) and Clean Technology / Ultra Super Critical Thermal Power Plants (coal, Gas), Engineering Consultancy and Urban infrastructure development activities. Suryachakra Power Corporation Limited has established 3 wholly owned subsidiaries for setting up of renewable energy (biomass) power projects and also acquired stake in Sri Panchajanya Power Private limited, which was setting up a 10 MW Biomass Power Plant at Hingoli, Maharashtra.

5. **NEPC India:** This is a Public Limited Company promoted by the Khemka Group with the primary objective of promoting wind energy. This successful Group has a multi crore turnover from diversified activities in the field of Power Generation from Wind Energy and manufacture and marketing of Wind Turbine Generator (a renewable energy device).
6. **Azure Power:** Azure Power is the green energy space as it is one of the solar energy companies in India. It is a solar power company, and they are supplying power to 20,000 people in 32 villages in Punjab.
7. **AuroMira Energy:** Auro Mira is also a green technology energy company that is private, and present in the Biomass, Small Hydel and Wind Sectors. It plans to develop over 1000 MW capacity by 2012. AME is presently focusing in Biomass, Small Hydro and Wind Sectors. AME plans to invest \$ 900 Million to develop, own and operate over 1000 MW in clean energy in addition to WTG manufacture and to develop over 15000 acres of energy plantation in the next five years. AME intends to foray into other clean energy technologies, solar, bio-diesel etc. in the future.
8. **Husk Power Systems:** This is truly an alternate energy company which owns and operates 35-100 kW “mini power-plants” that use discarded rice husks to deliver electricity to off-grid villages in the Indian “Rice Belt
9. **RRB Energy Limited:** This company is in the field of Wind Power Generation, and is an ISO 9001:2008 and ISO 14001:2004 certified Company. RRBEL is also an Independent Power Producer having established wind farms of aggregate megawatt capacity.
10. **Moser Baer Solar Limited:** This is a subsidiary of Moser Baer that is one of the solar energy companies as well. The Group’s photovoltaic manufacturing business was established between 2005 and 2007 with the primary objective of providing reliable solar power as a competitive non-subsidized source of energy.

### **Internationally renowned MNC's to offer electrical jobs**

Cisco, Hewlett Packard, Intel, AMD, IBM, Ford, General Electric, General Motors, Lockheed Martin, Lucent Technologies, Moog, Micron, Motorola, Nokia, Qualcomm, Rockwell, Sun Microsystems, Atto Technology, MTI and Texas Instruments.

### **Top core companies in India to offer electrical jobs**

1. Bharat Sanchar Nigam Limited
2. Tata Consultancy Services
3. Bharti Airtel Limited
4. Wipro Ltd
5. Infosys Technologies Limited
6. Hewlett-Packard India
7. HCL Infosystems Limited
8. Reliance Communications Ltd
9. LG Electronics India Pvt Ltd
10. IBM India Pvt Ltd
11. Videocon Industries Ltd
12. HCL Technologies Limited
13. Satyam Computer Services Ltd
14. Siemens Ltd.
15. Samsung India Electronics Pvt. Ltd.
16. Mahanagar Telephone Nigam Ltd
17. Redington (India) Limited
18. Cognizant Technology Solutions
19. Idea Cellular Ltd
20. Videsh Sanchar Nigam Limited

### **Exclusive Government jobs for Electrical Engineers**

1. ISRO
2. DRDO
3. BEL
4. BHEL
5. GAIL
6. SAIL
7. HAL
8. HPCL
9. NTPC
10. ONGC
11. IOCL
12. RRB
13. ECIL
14. APGENCO
15. APTRANSCO

[www.guvi.com](http://www.guvi.com) - Real Time problem and Programming Skill

**ANNA UNIVERSITY**  
**CENTRE FOR UNIVERSITY INDUSTRY COLLABORATION (CUIC)**

**A READY RECKONER FOR ENHANCING PLACEMENT ACTIVITIES**

**Dr. T .Thyagarajan, Director- CUIC**

**ROLES AND RESPONSIBILITIES OF PLACEMENT REPRESENTATIVES**

- Collect list of HR contact details through your friends/ relatives/ Newspaper/ Faculty members/ Seniors /Alumni
- Pass on the HR Contact details to Placement Officer for sending official invitations
- Ensure Placement Officer contact details in all the Department Brochures, to have single point contact
- Keep the hard and soft copies of Curriculum and Syllabus
- Keep the contact details (Email, Landline No. & Mobile No.) of all your classmates
- Keep the completed details about each student (SSLC, HSC, Semesterwise GPA, CGPA, DOB, Community, History & Current Arrears)
- Keep the contact details of other Placement Representatives
- Generate comprehensive Question Bank (Both Technical and Non-Technical)
- Collect Aptitude Questions/GD Topics/Interview Questions to create Question Bank
- Give training to the needy students
- Avoid spreading Rumors / False / Assumed information (This will lead to blacklisting)
- Avoid accepting false information / Track records from students (This will lead to rejection of offer)
- Avoid arguing with company HRs about previous year's branch preferences

**TIPS TO FACE INTERVIEWS**

- Maintain Professional Ethics and Moral Standards
- Read Frequently Asked Questions by interviewers and prepare the answers and practice them
- Prepare a Comprehensive Resume
- Practice with Mock Aptitude Test / Mock GD / Mock Interview etc.,
- Prepare well in fundamental & core subjects of respective branches
- Update database after declaration of revaluation / Arrear result
- View the placement Notice Board regularly
- As far as possible change of contact details should be avoided
- Visit the company's website before attending the Pre Placement Talk (PPT) to get clear idea
- Avoid Wearing Jeans / T-shirts/ Cheppal / Half sleeves
- Be punctual for PPT as well as for Test /Interview
- Avoid standing outside or near the PPT hall
- Occupy first benches also, during the PPT
- Maintain Gender separation during the PPT
- Maintain discipline during PPT
- Avoid coming late to the PPT/test/interview
- Ask only relevant / valid questions during the PPT
- Carry Pen, Pencil, Eraser, Passport Size Photograph etc., for the test

- Avoid contacting the HR directly. It should be through CUIC only.
- Carry Resume / Copy of Mark Sheets / Community / Co-curricular / Extra-curricular Certificate etc for the interview
- Bring OBC Certificate for PSU interview
- Bring doctor certificate for differently abled physique
- Inform at the beginning itself about colour blindness, hearing disorder to avoid disqualification at the end.
- Attend the interview with clean dress (tucked-in) and neatly shaved to maintain dignity and decorum
- Wish the interviewer while entering the room. Thank the interviewer before leaving the room
- During the interview, relax and avoid showing your nervousness obvious
- Speak loudly, clearly; sit up straight; try to look at the interviewer's eyes when you speak to him/her
- Be honest in your approach
- Keep your answers brief and to the point.
- Do not give 'YES' or 'NO' replies.
- Don't discuss your personal difficulties
- Show your enthusiasm and willingness
- Exhibit your skills and abilities.
- Avoid passing bad comments/Remarks about the College/University/Staff during the interview
- Prepare in advance, the questions you want to ask about the job and company
- Be available till the announcement of results
- Maintain silence during announcements of results
- Do not exhibit bad mannerism during the placement activity

## **FREQUENTLY ASKED QUESTIONS (FAQ)**

- Tell me about yourself
- What are your long range goals, ambitions, future plans?
- What do you want to be doing 5 or 10 years from now?
- How do you feel that you can contribute to this job?
- What are your hobbies?
- What are your strengths? Your weaknesses?
- What are your big accomplishments?
- What are your special abilities?
- Why you think that you are suitable for this kind of job?
- What is your career goal?
- What do you know about our company?
- Why are you applying for a job with us?
- What salary do you expect?
- Do you have any plans to go back to school?
- What kind of job profile you enjoy the most, the least and why?
- I have interviewed others for this job, why should I give you the job?
- Would you be willing to take an aptitude test?
- Can you tell me any thing about yourself that you think I might want to know?
- What is the lowest salary you would accept?
- Can you handle criticism? How do you deal with it?
- Do you have any questions?

## **H.R. EXPECTATIONS**

- Sincerity and honesty in the answers
- Attentiveness in listening to the questions
- Body language: gesture, posture, eye contact and confidence level
- Stress handling capability

- Positive approach in answering the questions
- Exhibition of skills, accomplishments and talents
- Enthusiasm and motivation level
- Command over communication skills
- Willingness and positive approach
- Exhibition of talents and accomplishments

### **POINTS DECIDED BY THE ORGANISATION**

- Interview time and venue
- Decision on allowing identical branches
- Execution of Bond
- Change in eligibility criteria
- Place of work
- Percentage cut-off/ history of arrears / standing arrears
- Postponement of dates/cancellation
- The number of recruits, on-board date

## **‘FACTS’ TO PERFORM WELL IN THE PLACEMENTS**

- F** - Clear the subjects in **F**irst attempt
- Learn **F**oreign Language (German, Japanese, French, Chinese)
- A** - Have right **A**ttitude
- C** - Have good **C**ommunication Skills
- Maintain a **C**GPA above 7.5
- T** - **T**hink Positive
- Develop creative **T**hinking
- S** - Be **S**agacious. Express your wisdom and Exhibit your Talents

## **K.L.N. College of Engineering.**

### **How to prepare for Anna University Examinations.**

Don't study just for passing the tests/exams. Ensure that you understood the concepts and you can explain/ demonstrate/justify/analyze/ answer/ argue/ design /implement/draw/develop any mathematical model, based on what you have learnt. If you are confident enough, you can successfully solve any question papers/technical interviews/competitive examinations at any time without fear/confusion/ delay. Remember that, you will be working in an environment, after graduation, where all the process/operation of machineries/equipment's are based on the basic scientific and engineering concepts what you have studied from first year to final year of your Engineering programme, where you are the only person to solve any problems aroused. You can't get away/escape from these. Hence, it is a lifelong learning, a wonderful experience.

Syllabus, books (at least 2-one Text books as prescribed in the syllabus, -one local author book) previous year question papers(atleast10), class notes, are your God/religion/food/ destiny/light. Ensure that you have studied all the contents of the syllabus, prepared correct answers for all questions in the AU question paper. Remember that ignoring any one word in the syllabus means you are losing 5 to 10 marks in each unit in the AU exams. Similarly, ignoring any one questions in the previous year question paper means you are losing 10 marks in each unit of AU exams. Don't expect that your Professor would cover 100% of the syllabus. Even if he/she has covered 100% of the syllabus don't think that he/she has covered 100% of each line in the syllabus. It is your responsibility to prepare 10% in excess of each lines in each units of the syllabus in addition to the contents taught by your Professors. This is possible by referring the books and the questions asked in the competitive exam books like GATE/TANCET/IES.

Plan your studies –right from the second week of the commencement of the classes till the semester examination is over. In a year, you will be attending the college only for 200 days(including theory/practical exams-8hours /day). You have 165 days (24 hours /day) away from the college. Prepare a time table from Monday-Friday. Take a rest on Saturday and Sunday. Allocate 3-4 hours in the evening for study.1-2 hours for completing assignments/observation/record note work. Remaining 2-3 hours for studying subjects A,B.(Mon),C,D(Tue)E,F(Wed), A,B(Thu),C,D(Fri),E,F(Sat or Sun).Each day, in addition to studying subjects for the current syllabus, you should refer competitive exam books (GATE/TANCET/IES/ Objective type questions –technical) corresponding to the current syllabus. This parallel preparation will ensure that you have prepared for state level and National level examinations there by you will be meeting the expectations of the Engineering Educational Objectives. Your preparation for AU examination should be vigorous (minimum), 15 days from the commencement of the exam and it should be maximum 2 days before the exam. You need to allocate for 8 hours per day during minimum days (early morning-6AM-10AM with a break for an hour, 10AM-12 Noon-sleep/rest,12 noon-2PM-study,2PM-5PM-sleep/rest,6PM-10PM –study). Repetition/memorizing is required to retain certain contents to improve confidence on the subject. During rest time you can have group discussion with your friends or you can teach slow learners, thereby you will gain more knowledge and also help others.

Presentation – AU Exam-General complaints by students that the valuation is not fair or poor valuation. Remarks of examiners that there is nothing in the answer paper. Parents may say that either “college is not good” or “it is a fate”. Public may say “poor quality” and the experts may comment that “only 20% are employable”. These statements will go on for centuries. Many students believes that they have written

right answers mostly (but many of them actually wrong) and few examiners assumed certain answers by students are wrong (but many of them are actually correct). It is 70% true that students are not presenting the answers well and it is 30% true that the valuation is not fair. But it is 95% true that the deserved students are getting expected results in most of the papers. This is because of good presentation. Good presentation involves many factors such as legible writing, good handwriting, answering correctly (100% correct), all answers with mathematical modeling/pictorial representation/drawing/layout/sketches with different colors, writing 7 pages for 16 mark questions with valid points and sketches, 4 pages for 8 marks with valid points and sketches/drawings/equations, characterizes,. Such students will solve problems correctly without any overwriting/ strikeouts. Simply, they do not cheat. These are the in-born qualities or developed over the years due to good habits, friendship, good character, obedience, hard work, well brought up by parents and blessing by God. Everyone can become like them if their attitude is good. Fear of God is the beginning of Wisdom. The examiners will know about your quality, just by referring the way you have answered Part-A- questions. A well prepared student would get a maximum of 18 out of 20. This impresses the examiner so that they will award a maximum of 14-16 for each part-B-question. Most of the students would answer wrongly in the Part-A-questions. This is due to their poor preparation during Class tests/internal tests, frequently taking leave, lot of diversion, skipping the classes for attending Co-Curricular/ /extra-curricular activities etc inside or outside the college.. Attending the classes is more important than attending college. Students are expected to attend 98%classes to maintain the continuity of the subjects learnt. One-day absence means it will take a week to study on his/her own. If he/she fails to study on his/her own to review the classes not attended means a loss of 10 marks in the exams.

Know well about Why one should apply for revaluation without /with Photocopy, schedule and fees to be paid. Sometimes a well-deserved students get low CGPA than he/she expected or even may fail. This may be due to error in valuation/data entry. Hence such students should not hesitate to apply for revaluation with/without photocopy. The parents should also be informed, all about these unfortunates (the misunderstanding between parents /sons/daughter/faculty may lead to unnecessary things). 90% of those deserved students who applied for revaluation with photo copy benefitted after revaluation. Ignorance/communication failure of these formalities, by deserved students, may damage their life. Some students failed in revaluation secured “O”grade in the REVIEW, shows some hope in the examination system and the better prospect of the students.

Need to maintain high CGPA in every semester. This is possible only when one gets “O” grade in all practical’s (from first to eighth semester). Those who are regular in attending the lab classes, submitting the observation and record note in time, disciplined behavior with staff and students in the class room/laboratory/campus etc. will impress the faculty in-charge of practical’s, so that he/she will help such students during regular lab classes. This will improve the students to do the lab experiments with confidence and fetch them to get more marks. This will reflect in internal assessment marks also. Classification of degree- First class with distinction- More than 8.5 CGPA (passed all subjects in first attempt), First class- More than 7.0 CGPA at the end of eighth semester, less than this would be second class.

**K.L.N. COLLEGE OF ENGINEERING**  
**POTTAPALAYAM - 630 612 (11KM from Madurai City)**  
**SIVAGANGAI DISTRICT, TAMILNADU, INDIA**  
**(Sponsored by K.L.N. Sourashtra College of Engineering Council)**

**Approved by AICTE, New Delhi**

**All UG courses are permanently Affiliated to Anna University, Chennai.**

**Approved as Nodal Centre for Quality Improvement Cell by Anna University, Chennai.**

**Approved Research Centres for MECH, EEE, ECE & CSE by Anna University, Chennai.**

**VISION AND MISSION OF THE COLLEGE**

**VISION**

To become a Premier Institute of National Repute by Providing Quality Education, Successful Graduation, Potential Employability and Advanced Research & Development through Academic Excellence.

**MISSION**

To Develop and Make Students Competent Professional in the Dynamic Environment in the field of Engineering, Technology and Management by emphasizing Research, Social Concern and Ethical Values through Quality Education System.

**VISION AND MISSION OF THE DEPARTMENT**

**VISION**

To become a high standard of excellence in Education, Training and Research in the field of Electrical & Electronics Engineering and allied applications.

**MISSION**

To produce excellent, innovative and Nationalistic Engineers with Ethical Values and to advance in the field of Electrical & Electronics Engineering and allied areas.

**COURSES OFFERED**

**UG COURSES - B.E. / B.TECH**

1. Mechanical Engineering (Accredited by NBA)
2. Electrical & Electronics Engineering (Accredited by NBA)
3. Electronics & Communication Engineering (Accredited by NBA)
4. Computer Science & Engineering (Accredited by NBA)
5. Information Technology (Accredited by NBA)
6. Automobile Engineering
7. Electronics & Instrumentation Engineering

**PG COURSES**

1. Master of Computer Applications
2. Master of Business Administration
3. M.E. – CAD / CAM
4. M.E. – Communication Systems
5. M.E. – Power Systems Engineering
6. M.E. – Computer Science & Engineering
7. M.E. – Computer Science & Engineering (with Specialization in Networks)
